

# Graco LineSite™

Remote Monitoring Solution for InvisiPac™ Hot Melt Systems

## Take control of your hot melt dispensing equipment

- Stay in touch with your operation by viewing the status of InvisiPac hot melt machines on the plant floor from your smart phone, tablet or computer
- Be confident in production quality by observing real-time performance and critical system parameters
- Save money by monitoring adhesive usage
- Respond quickly to keep your line running with email alerts for system events or alarms

PROVEN QUALITY. LEADING TECHNOLOGY.

# Graco LineSite™

Remote Monitoring Solution for InvisiPac™ Hot Melt Systems

## The data to make real-time decisions – wherever you are.

LineSite is a data tracking and collection solution for the InvisiPac Tank-Free™ Hot Melt System. With LineSite, you can track InvisiPac machines on the plant floor in real-time from your smart phone, tablet or computer, and use the data as a powerful business tool to cut costs.

Are your lines running? Could they be more efficient? How much hot melt is being used in one hour? One day? One week? Should you be considering simple preventative maintenance?

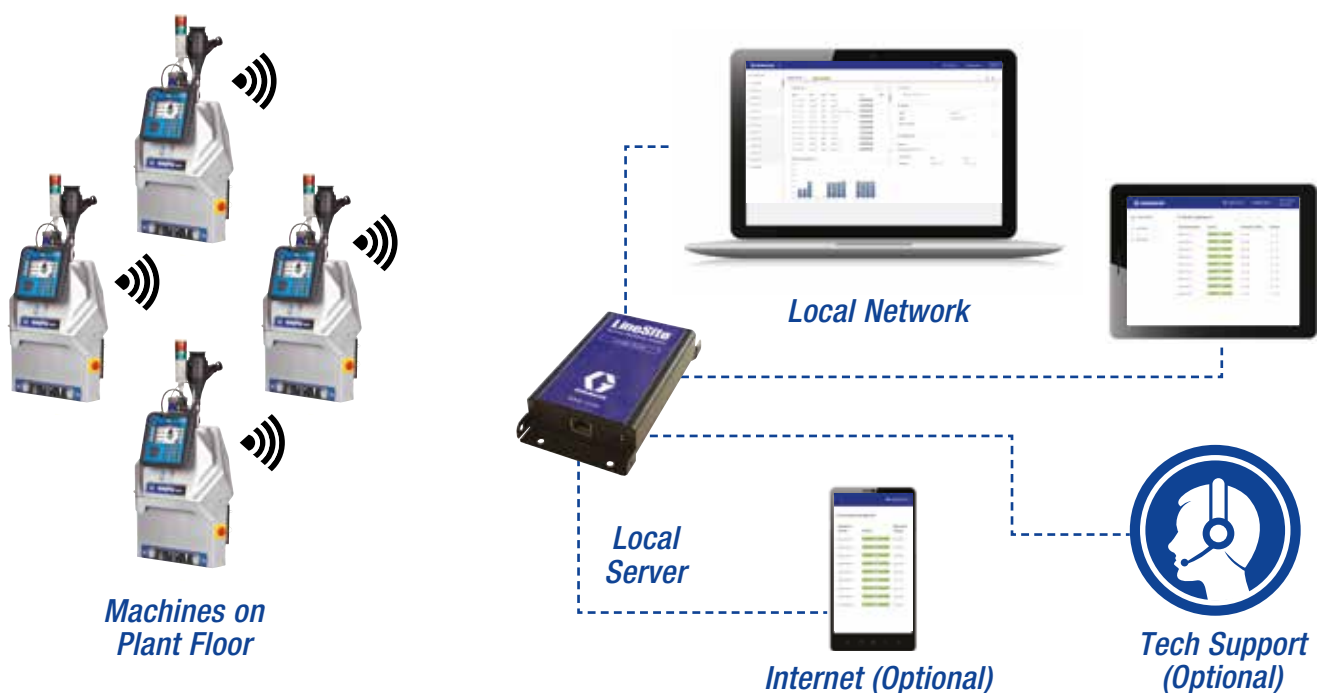

LineSite puts critical information at your fingertips.

## How it works

LineSite transmits real-time data from individual InvisiPac systems and collects that data on a single, local storage device allowing you to:

- Check temperatures and review critical performance metrics
- Receive email alerts for system events or alarms
- See how much adhesive each line is using
- Monitor machine diagnostics and prevent issues from causing you downtime
- Respond instantaneously to potential faults and diagnose them remotely
- Review system operating data in an intuitive, graphical format

The data gathered by LineSite saves you money by helping diagnose issues faster, making sure you're applying the right amount of adhesive per package and ultimately improving the efficiency of your packaging line. Best of all, LineSite provides peace of mind that jobs are running smoothly.

## Accessibility at your fingertips

Log in from your local network or enable web access through the external portal to connect from anywhere. Graco's leading technology gives you the tools to keep your line running and the flexibility to make the choice that's right for your business.

- Opt-in to give authorized users access from anywhere in the world
- Opt-out to keep information contained on your local factory network

## View your plant dashboard – status at a glance

- Track which lines are active
- View daily productivity

Machine Name	Status	Adhesive Today	Events
Machine 1	Active	13.2 lb	🚩 📧 🔔
Machine 2	Inactive	2.1 lb	🚩 📧 🔔
Machine 3	Active	33.5 lb	🚩 📧 🔔
Machine 4	Active	18.6 lb	🚩 📧 🔔
Machine 5	Warming Up	0.0 lb	🚩 📧 🔔

## Be in the know with email notifications

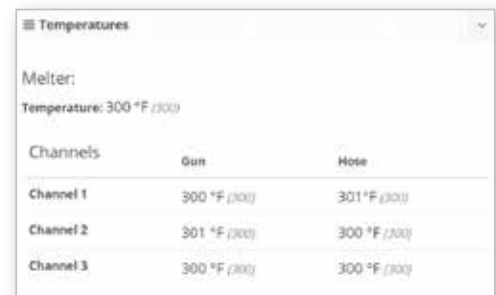

- Receive an e-mail when alarms or system setup changes occur

## Be confident with live troubleshooting and diagnostics

- View live temperatures and critical system parameters
- View system events and link to detailed troubleshooting instructions
- Download logs and e-mail them to Graco for support
- Graph system parameters to analyze historical performance

## Save money when you monitor adhesive usage

- View adhesive consumption over time to spot trends
- Adjust the view with a single click
- Save the data for historical records

Channels	Gun	Nose
Channel 1	300 °F (300)	301 °F (300)
Channel 2	301 °F (300)	300 °F (300)
Channel 3	300 °F (300)	300 °F (300)

## ABOUT GRACO

Founded in 1926, Graco is a world leader in fluid handling systems and components. Graco products move, measure, control, dispense and apply a wide range of fluids and viscous materials used in vehicle lubrication, commercial and industrial settings.

The company's success is based on its unwavering commitment to technical excellence, world-class manufacturing and unparalleled customer service. Working closely with qualified distributors, Graco offers systems, products and technology that set the quality standard in a wide range of fluid handling solutions. Graco provides equipment for spray finishing, protective coating, paint circulation, lubrication, and dispensing sealants and adhesives, along with power application equipment for the contractor industry. Graco's ongoing investment in fluid management and control will continue to provide innovative solutions to a diverse global market.
