

Agitator Speed Controller

Automatic Speed Controller for Air Drive Agitators

Maintain consistent agitator speed, even with an empty drum

- Quick install, requires less than 1 minute to set up
- Prevents over agitation for shear sensitive and waterborne materials
- Saves energy by limiting agitator speed
- Prevents motor over speeding, extending life time

PROVEN QUALITY. LEADING TECHNOLOGY.

Automatic Speed Controller for Air Drive Agitators

Target Applications

- Waterborne material
- Shear-sensitive material
- Energy conscious users

Ordering Information

| Part No. | Description |
|----------|---------------------------|
| 24G621 | Agitator Speed Controller |

Installation Information

Speed controller fits on most Graco air driven agitators and many competitive agitators. Contact your Graco Business Development Specialist for more information.

Technical Specifications

| | |
|----------------------------|--------------------------|
| Maximum air input pressure | 7 bar (0.7 MPa, 100 psi) |
| Maximum speed | 1000 rpm |
| Speed control range | 100-1000 rpm |
| Weight | 0.64 kg (1.4 lb) |
