

# Circulation Pumps

High performance industrial pumps

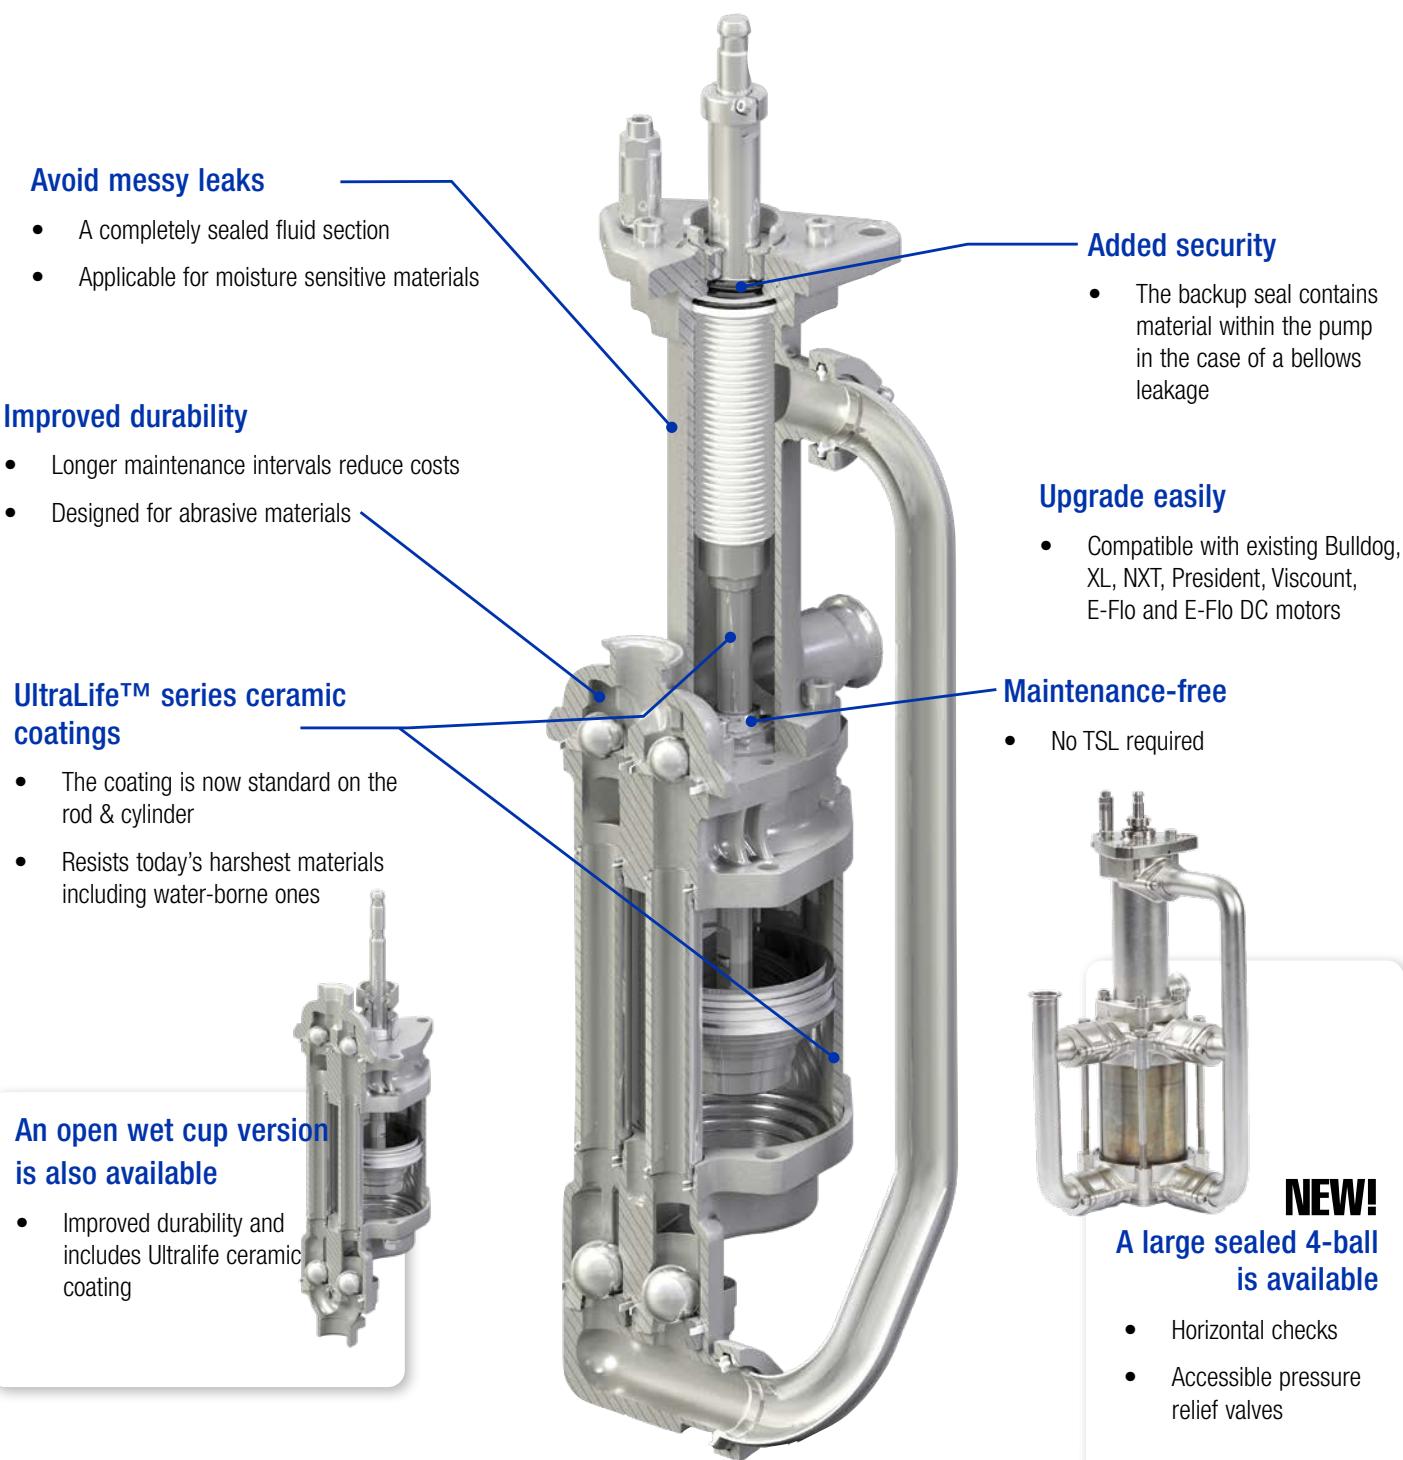

PROVEN QUALITY. LEADING TECHNOLOGY.

# Minimise downtime & reduce costs

## With Graco's sealed 4-ball lower

Downtime is frustrating and costly. To help keep you up-and-running and keep expenses in check, Graco's sealed lower not only has longer maintenance cycles, but it is also easier, faster and cheaper to replace than an entire pump assembly. Because the lower is completely sealed, it can be used for every pumping application in your mix room, including catalysed coatings. Common components make it simpler to maintain your pump, and it reduces your inventory level of repair parts.

Furthermore our positive displacement piston pumps displace fluid in both directions of the stroke, providing low cycle rates and a high flow, ideal for applications using shear-sensitive materials.

# Minimise downtimes & reduce costs

## Which system is the right one for you?

No matter what your need, Graco has a pump for your circulation application. Whether it is electric, pneumatic or hydraulic, a Graco pump helps you get the job done right with superior results.

Furthermore, because our sealed 4-ball lower is compatible with most Graco motors, it is a great option for new or existing installations.

# Electric piston pumps

## Make the switch to making savings

Get the benefits of a pneumatic motor with the energy efficiency of an electric drive unit!

Our E-Flo® DC (dual control) electric circulating pump has been found to be up to five times more efficient than similar sized pneumatic pumps – lowering your energy bills and saving you money. Quiet pumping technology means you get a better work environment and advanced features allow you to prevent costly material loss and reworking.

## Why choose E-Flo DC electric?

### Save energy

Up to 5 times more efficient than a pneumatic system

### Prevent material loss

Integrated runaway protection protects your pump from premature wear and prevents costly material loss

### Eliminate costly reworking

The electric motor eliminates icing – giving you smoother pump operation and a better finished product

### Improve quality

Dual Control (DC) technology gives you less pulsation and smooth, rapid changeovers – for better, more consistent finishes.

### Improve the work environment

A quiet electric motor

### Easy installation

It requires either 220 volt single phase

or 380-480 volt 3-phase power.

No VFD required.

### E-Flo DC

An output of up to 2500 cc/cycle

### Legacy E-Flo

An output of up to 4000 cc/cycle

# Electric piston pumps

## Achieve higher flow rates

We doubled our original 4-ball DC circulation pump technology to give you less pulsation, increased flow rates and less downtime.

Unlike competitive pumps that are linked and controlled together, Graco's lowers operate independently of each other. This allows the pump to adjust to varying pressure and flow rate demands thousands of times per second resulting in minimal pressure fluctuations.

Each pump can also run alone to keep production running if maintenance is required.

E-Flo DC high flow rate  
Output up to 5000 cc/cycle

## E-Flo DC supply pump

Our supply pump features an energy efficient electric motor that stalls under pressure and changes speeds to maintain a constant pressure. This 2-ball electric supply pump is ideal for your high pressure applications such as waterborne spraying or circulation of high-viscosity materials.

Reasons to buy the E-Flo DC supply pump:

- Efficiency: 5 times more efficient than an air motor
- Dual Control (DC) modes: Maintains either a constant pressure or a constant flow rate
- Local control: Easy to use control with two knobs
- Easy installation It requires either 220 volt single phase or 380-480 volt 3-phase power.  
No VFD required.
- Integrated runaway protection: Prevents material loss and premature wear on the pump
- Multiple sizes available: 290 cc, 220 cc, 180 cc, and 145 cc displacement lowers

E-Flo DC supply  
A maximum pressure of 3000 psi (206 bar)

# Boost your bottom line with energy savings and Advanced Pump Control

## An advanced motor with a control module

Efficient and smart, the E-Flo DC with the Advanced Control module gives you additional control of the pump performance and allows you to manage several pumps from a single module.

### Control module

- Integrate the pump easily into a PLC network for better visibility and control outside of the hazardous area
- Configure different operating profiles of the pump
- Up to two pressure transducers can be added for greater control
- Connect the pneumatic BPR controller to automate an "off-production" profile for even greater energy savings
- The password protects pump settings to protect against unauthorized access

### Simple to install

Basic installation requires only a single-phase 220 V, 50/60 Hz power or 3-phase 380 – 480 V 50/60 Hz power

No VFDs required.

### Basic motor

Operator-friendly control knobs have clear symbols making it easy to adjust pump settings. Gives you local control at the pump and runaway protection.

# Boost your bottom line with energy savings and Advanced Pump Control

## Save energy

### Five times more efficient

An electric motor means big savings when compared to similar-sized pneumatic motors – helping lower your energy bills and saving you money.

## Boost your profits

Integrated runaway protection protects your pump from premature wear and prevents costly material loss.

The electric motor eliminates icing – giving you smoother pump operation and a better finished product.

Use less energy and spend less on maintenance costs with the field-proven reliability of Graco's 2- and 4-ball pumps.

## Improve quality

The Advanced Control module allows you to easily integrate the pump into a PLC network for even greater control and visibility.

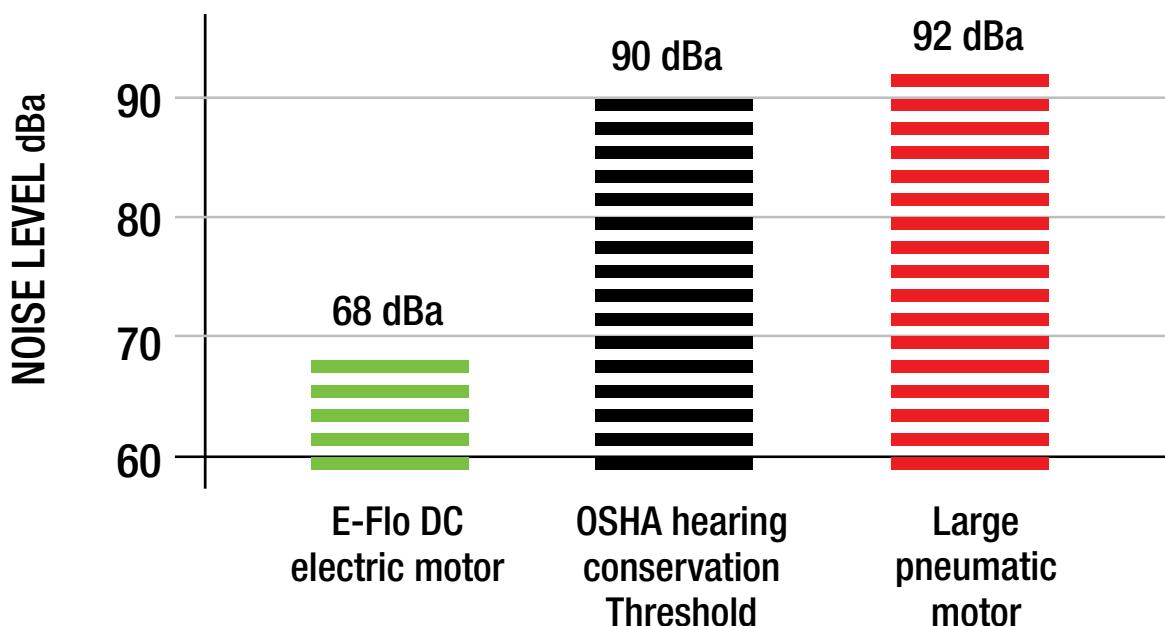

Dual Control (DC) technology gives you less pulsation and smooth, rapid changeovers – for better, more consistent finishes.

## Improve productivity

Electric pump functionality, with the simplicity of a pneumatic pump, means less time training.

Increased reliability means you will spend less time maintaining and more time up and running.

A quiet electric motor means happier operators and better results. Exceeds OSHA sound regulations and over 20 dbAs quieter compared to similar-sized pneumatic motors.

*Note: All pressures 100 psi*

# Boost your bottom line with energy savings and Advanced Pump Control

## Control module & cable

If a **Basic** motor control is desired, your pump selection is complete.

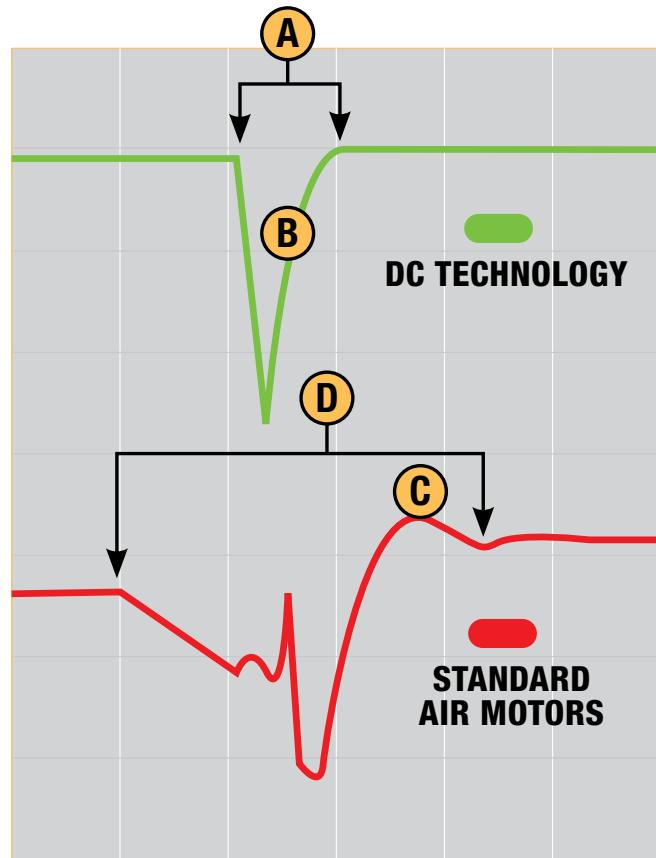

If an **Advanced** motor control is desired, a control module and CAN cable will be required. Determine the desired mounting location of the control module. The control module can be mounted directly on the pump or on a nearby wall. Select the appropriate CAN cable length from the table below.

High flow rate circulation pumps (2X) include the control module and the CAN cable.

No additional equipment is required.

Part number	Description
24P822	Control module kit (240v)
17V232	Control module kit (480v)
16P911	1 m (3 ft) CAN cable
16P912	8 m (25 ft) CAN cable
25D600	Serial to fibre kit
16M173	30 m (100 ft) fibre cable
17B160	100 m (320 ft) (room) fibre cable

## Changeover comparison

# Pneumatic piston pumps

## Easy to install and maintain

Graco pneumatic pumps set the standard for long-lasting durability. These pumps are built to handle the toughest finishing applications, keep you up and running longer and give you outstanding performance! They are simple, reliable, and with a slow-moving reciprocating motion, do not damage the paint like centrifugal and other rotary pumping devices. They are also inherently safe for use at hazardous locations.

### Why choose a High-Flo pneumatic?

#### It saves time

Easy to install since most plants have air available, ready to use

#### Easy to maintain

Modular design for easier maintenance

#### Easy to use

Field-proven reliable equipment

#### Dependable

The rugged body armour will not rust or dent

#### Eliminates stalling

De-icing controls eliminate stalling

#### Safe for use at hazardous locations

No sources of electrical ignition

### DATATRAK

Efficient and smart, the E-Flo DC with the Advanced Control module gives you additional control of pump performance and allows you to manage several pumps from a single module.

- Runaway protection
- Pump diagnostics
- Tracks material usage

**High-Flo®**  
A variety of flow rates are available

# Pneumatic piston pumps

## Easy to install and maintain

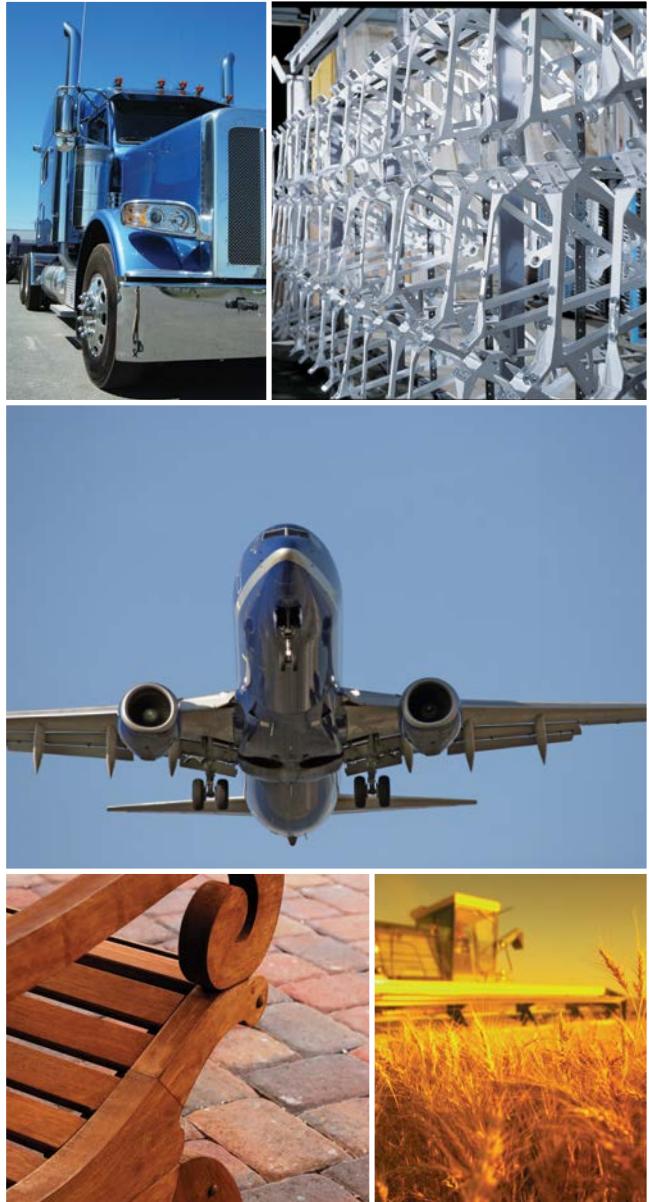

### Decades of proven reliability with the President

Graco's high volume President circulating pumps allow you to handle mid-range flow requirements while operating at low cycle rates. The pump lower requires fewer cycles per gallon and longer intervals between seal replacement.

- Excellent abrasion and corrosion resistance
- Stainless steel and carbon steel wetted parts for a wide range of fluids
- Large porting for excellent priming and handling of high viscosity fluids
- Low cost of ownership

**President®**  
Output up to 890 cc/cycle

#### Typical applications

- Paint circulation
- Fluid transfer and supply

#### Typical fluids handled

- Water-borne and solvent-borne paints
- Catalysed coatings
- Moisture-sensitive materials
- UV-cure coatings

# Endura-Flo™

## High pressure diaphragm pumps

Do not risk unscheduled downtime because of equipment failure. The simple design of Endura-Flo not only ensures long-lasting durability, but it also withstands runaway conditions better than other diaphragm pumps.

This easy-to-install pump offers low pulsation output and smooth changeover for excellent pressure characteristics. The simplified fluid path allows for quick colour changes, saving you time and money. Select either the Extended Pressure 4:1 models with the highest rated pressure in the industry or Extended Life with the fluid isolated air section of the 3:1 models.

### Why choose the Endura-Flo?

#### An improved design

The redesigned diaphragm lasts longer and can hold up better to extreme operating conditions

#### Easy maintenance

Easy access to critical components ensures fast online maintenance

#### Reliable

Superior durability when handling abrasive materials

#### It saves time

Minimal use of solvent to flush and a consistent start-up pressure make it ideal for multiple colour changes and piggable systems

#### Upgrade to DataTrak

DataTrak prevents runaway and tracks material usage

# Glutton™

## High pressure plunger pumps

When it comes to challenging applications, the Glutton is the go to pump. With its bellows seal, Glutton keeps air and moisture out while managing abrasive, moisture sensitive and other materials that other pumps cannot.

The new Glutton air valve upgrades the platform to use less air, run quieter and deliver consistent results while using proven anti-icing technology.

### Why choose the Glutton?

#### An excellent performance

Easily manages any material but excels when installed in challenging applications

#### Dependable

Delivers consistent results over the long term

#### Easy to maintain

Meets tough use demands while keeping maintenance to a minimum

#### Extra control

DataTrak prevents runaway and track material use

# Hydraulic piston pumps

## A simple, proven design

Field proven, energy efficient 4-ball Viscount® piston pumps provide reliable, quiet, ice-free performance and are up to 4x more energy efficient than comparable compressed air systems.

Viscount motors have a long-life packing design and stainless steel wetted parts with neoprene packings for long-lasting durability. With two hydraulic motor types, Graco has the right size to meet your application needs.

**Viscount®**  
A variety of flow rates available

### Why choose Viscount hydraulic?

#### Save energy

Up to 4x more efficient than pneumatics

#### Low maintenance costs

Operates in a closed system to prevent contamination

#### Quiet operation

Motors do not exhaust to atmosphere

#### High performance

A stronger performance pressure curve than pneumatics

#### Low investment costs

Greater flexibility with more reserve capacity than pneumatics

#### Space savings

Great for areas with limited floor space

# Ordering information - accessories

## Air supply controls

217074..... Air filter (40 micron)  
181521..... High volume air regulator 5.1 bar (200 cfm, 75 psi max)  
206197..... High volume air regulator 5.1 bar (200 cfm, 75 psi max)  
207755..... High volume air regulator 8.6 bar (380 cfm, 125 psi max)  
214849..... Air lubricator (3/4 npt(f), 0.48 L (16 oz) bowl capacity  
217072..... Air filter-regulator-lubricator (FRL) kit (2200/3400)  
217073..... Air filter-regulator-lubricator (FRL) kit (6500)  
222345..... Air filter-regulator-lubricator (FRL) kit (2200/3400/Glutton with hose, bracket, gauge and swivel adapters)  
NXT011..... Integrated air control for NXT air motors

## Back pressure regulators (BPR)

208997..... Mechanical 57 L/min. - 12 bar (15 gpm, 180 psi max fluid pressure, 1-1/4 npt)  
236770..... Mechanical 16.2 L/min. - 12 bar (4.3 gpm, 180 psi max fluid pressure, 3/8 npt)  
916154..... Carbide mechanical 57 L/min. - 12 bar (15 gpm, 180 psi max fluid pressure, 1-1/4 npt)  
288117..... Pneumatic 76 L/min. - 21 bar (20 gpm, 300 psi max fluid pressure, 1-1/4 npt)  
288311..... Pneumatic 76 L/min. - 21 bar (20 gpm, 300 psi max fluid pressure, 1-1/2 npt)  
288262..... Pneumatic 76 L/min. - 21 bar (20 gpm, 300 psi max fluid pressure, 2 in tri-clamp)  
224486..... Low shear mechanical 76 L/min. - 21 bar (20 gpm, 300 psi max fluid pressure, 1-1/2 npt)  
223824..... Low shear mechanical 76 L/min. - 21 bar (20 gpm, 300 psi max fluid pressure, 2 in sanitary)  
15J498..... Pneumatic BPR conversion kit  
24E709..... BPR kit for 750 cc lowers  
24E722..... BPR kit for 1000 cc to 4000 cc lowers

## Fittings

26A246 ..... Complete Tri-Clamp to NPT kit Contains fittings, gaskets, & tri-clamps  
15J422..... Inlet/outlet fitting for 1-1/2 Tri-Clamp to 1-1/2 NPT  
17K780..... Inlet/outlet fitting for 1-1/2 Tri-Clamp to 1 NPT  
16F044..... Inlet/outlet fitting for 1 NPT to 1 BSPP  
16F045..... Inlet/outlet fitting for 1-1/2 NPT to 1-1/2 BSPP  
16F046..... Inlet/outlet fitting for 2 NPT to 2 BSPP  
15J423..... Inlet/outlet fitting for 2 Tri-Clamp to 2 NPT  
15J639..... Inlet/outlet fitting for 1-1/2 Tri-Clamp to 2 Tri-Clamp  
17K779..... Inlet/outlet right angle adapter for 1-1/2 Tri-Clamp to 1-1/2 Tri-Clamp  
118598..... 1-1/2 clamp (Tri-Clamp)  
120351..... PTFE w/elastomer sanitary gasket  
680454..... Solid PTFE sanitary gasket

## Fluid filter

244053..... Low pressure PTFE encapsulated fluoro-elastomer SST (mesh 60)  
247479..... Kit for 3/4 NPT(f) SST fluid filter kit  
247480..... Kit for 1 NPT(f) SST fluid filter kit  
247474..... Aluminium fluid filter kit  
915515..... Low pressure bag filter 57 L/min. - 21 bar (15 gpm, 300 psi, CS)  
915516..... Low pressure bag filter 57 L/min. - 21 bar (15 gpm, 300 psi, SST)  
915517..... Low pressure bag filter 113 L/min. - 21 bar (30 gpm, 300 psi, CS)  
915518..... Low pressure bag filter 113 L/min. - 21 bar (30 gpm, 300 psi, SST)  
213058..... Red alert low pressure filter 22 L/min. (6 gpm, 60 mesh, 3/4 NPT)  
213059..... Red alert low pressure filter 22 L/min. (6 gpm, 100 mesh, 3/4 NPT)  
213060..... Red alert low pressure filter 22 L/min. (6 gpm, 150 mesh, 3/4 NPT)  
213061..... Red alert low pressure filter 22 L/min. (6 gpm, 200 mesh, 3/4 NPT)  
213063..... Red alert low pressure filter 76 L/min. (20 gpm, 60 mesh, 3/4 NPT)  
213064..... Red alert low pressure filter 76 L/min. (20 gpm, 100 mesh, 3/4 NPT)  
213065..... Red alert low pressure filter 76 L/min. (20 gpm, 150 mesh, 3/4 NPT)  
213066..... Red alert low pressure filter 76 L/min. (20 gpm, 200 mesh, 3/4 NPT)

# Ordering information

## Gauge

- 187875..... Gauge 2 bar (30 psi max, SST)
- 187874..... Gauge 7 bar (100 psi max, SST)
- 187873..... Gauge 14 bar (200 psi max, SST)
- 187876..... Gauge 21 bar (300 psi max, SST)

## Torqueable wet cup kits

- 24F144..... kit for 750-2000 cc lowers
- 187874..... kit for 3000-4000 cc lowers

## E-Flo motor accessories

- 24H372 ..... ACS module
- 16A630 ..... TDC & position sensor barrier
- 16A633 ..... Pressure transducer barrier
- 15V331 ..... Ethernet IP gateway assembly
- 15V963 ..... DeviceNet gateway assembly
- 15V964 ..... Profibus gateway assembly
- 120373 ..... Local I/O box
- 15J755 ..... Sensor circuit kit

## Endura-Flo kits

- 17H315 ..... Floor stand kit
- 17H316 ..... Endura-Flo 4D350 Datatrak air valve
- 17H317 ..... Endura-Flo 4D350 Standard air valve
- 17H318 ..... Endura-Flo 4D350 Datatrak air valve
- 17H319 ..... Endura-Flo 4D350 Standard air valve
- 24Y304<sup>†</sup> ..... Endura-Flo 4D150 Datatrak conversion kit
- 24Y306<sup>†</sup> ..... Endura-Flo 4D350 Datatrak conversion kit
- 24D984 ..... Conversion kit for 150
- 24D985 ..... Conversion kit for 350

## Hydraulic motor accessories

- 189305..... Assembly tool for servicing yoke and trip rod (Viscount I)
- 239805..... Intake valve seat with relief valve, carbide seat (Viscount I)
- 239865..... Intake valve seat without relief valve, carbide seat (Viscount I)
- 237744..... Intake valve seat, with internal pressure relief valve (Viscount II)
- 180529..... Intake valve seat, without relief valve (Viscount II)
- 515258..... Hydraulic pressure control valve 3/4 npt inlet, 3/4 npt outlet, 1/4 npt drain, 1/4 npt gauge
- 512150..... Hydraulic shutoff valve 140 bar (2000 psi max, 1/2 NPT (fbe))
- 102644..... Hydraulic shutoff valve 210 bar (3000 psi max, 3/4 NPT (fbe))
- 102646..... Hydraulic shutoff valve 210 bar (3000 psi max, 1 NPT (fbe))
- 169236..... Hydraulic oil 18.9 L (5 gal) size

## Pneumatic motor accessories

- NXT206..... DataTrak upgrade kit for the NXT 2200
- NXT306..... DataTrak upgrade kit for the NXT 3400
- NXT606..... DataTrak upgrade kit for the NXT 6500

## Mounting hardware

- 255143..... Wall bracket for all NXT and Viscount motors
- 253692..... Stand for NXT, E-Flo DC and Viscount motors (750-2000 cc)
- 218742..... Stand for NXT, E-Flo DC and Viscount motors (3000-4000 cc)
- 247312..... Wall mount and floor stand adapter for NXT 2200 motor
- 16E086..... Wall mount and floor stand adapter for Viscount I, I+ motor
- 287884\*\* ..... Heavy duty cart
- 287919\*\* ..... Light duty cart
- 222011..... Grounding clamps
- 15H884 ..... Stand for E-Flo

## Suction kits

- 247475.....For 1-1/2 NPT(f) 18 L (5 gallon) SST suction kit  
247476.....For 1-1/2 NPT(f) 208 L (55 gallon) SST suction kit  
247477.....For 2 NPT(f) 18 L (5 gallon) suction kit  
247478.....For 2 NPT(f) 208 L (55 gallon) SST suction kit  
24E709.....Circulation kit 16.2 L/min. - 12.4 bar (4.3 gpm, 180 psi max)

## Surge tanks

- 239858.....Medium volume 57 L/min. - 41 bar (15 gpm, 600 psi, SST)  
238987.....High volume 76 L/min. - 21 bar (20 gpm, 300 psi, SST, 2 NPT)  
238988.....High volume 76 L/min. - 21 bar (20 gpm, 300 psi, SST, 1-1/2 NPT)  
218509.....High volume 76 L/min. - 21 bar (20 gpm, 300 psi, SST, 2 NPT, carbide)  
218742.....Floor stand

## E-Flo DC motor accessories

- 24R050 .....Pressure transducer, NPT 34.5 bar (500 psi)  
24X089.....Pressure transducer, inline Tri-clamp 34.5 bar (500 psi)  
24Y245.....Pressure transducer, NPT 345 bar (5000 psi)  
16V103.....Transducer extension cable  
24V001.....Pneumatic BPR control system  
16U729 .....Run/Stop Switch  
16M172.....15 m (50 ft) fibre optic cable  
16M173.....30 m (100 ft) fibre optic cable  
17B160 .....100 m (330 ft) fibre optic cable  
24R086 .....Fibre/serial converter kit  
24N978 .....Single fibre optic converter (for adding additional fibre optic converters to 24R086)  
15V331.....Ethernet IP gateway assembly  
17M396.....Anybus Profinet module

## E-Flo DC motors

- EM0011.....1 hp motor, basic controls<sup>§</sup>  
EM0012.....1 hp motor, advanced controls<sup>§</sup>  
EM0013.....1 hp motor, basic controls<sup>§§</sup>  
EM0014.....1 hp motor, advanced controls<sup>§§</sup>  
EM0021.....2 hp motor, basic controls<sup>§</sup>  
EM0022.....2 hp motor, advanced controls<sup>§</sup>  
EM0023.....2 hp motor, basic controls<sup>§§</sup>  
EM0024.....2 hp motor, advanced controls<sup>§§</sup>  
EM0025\*\* .....2 hp motor (for "2X" E-Flo DC 2000-4000cc circulation pumps), advanced controls<sup>§</sup>  
EM0026\*\* .....2 hp motor (for "2X" E-Flo DC 2000-4000cc circulation pumps), advanced controls<sup>§§</sup>

## Glutton kits

- 17W667.....Air valve conversion kit, standard  
17W668.....Air valve conversion kit, Data Trak

<sup>†</sup> Kit includes replacement air valve compatible with the solenoid

<sup>\*\*</sup> System requires two motors

<sup>§</sup> ATEX/FM/IECEx

<sup>§§</sup> ATEX/FM/TIIS/KCS

## ABOUT GRACO

Founded in 1926, Graco is a world leader in fluid handling systems and components. Graco products move, measure, control, dispense and apply a wide range of fluids and viscous materials used in vehicle lubrication, commercial and industrial settings.

The company's success is based on its unwavering commitment to technical excellence, world-class manufacturing and unparalleled customer service. Working closely with qualified distributors, Graco offers systems, products and technology that set the quality standard in a wide range of fluid handling solutions. Graco provides equipment for spray finishing, protective coating, paint circulation, lubrication, and dispensing sealants and adhesives, along with power application equipment for the contractor industry. Graco's ongoing investment in fluid management and control will continue to provide innovative solutions to a diverse global market.

## GRACO LOCATIONS

### MAILING ADDRESS
