

AQUAMAX™

Graco's Complete Line of Professional Pressure Washers

www.graco.com

AQUAMAX ADVANTAGES

- Highest performing **Honda®** and **Briggs & Stratton engines** for the toughest professional cleaning jobs: surface preparation, chemical treatment, horizontal cleaning, etc.
- **QuikDisconnect™ tips and chemical injector kit**, very easy to exchange, covering widest range of applications.
- Tubed pneumatic tyres, gun and hose holder for easy transport and storage.

Professional Cleaning Applications

**AQUAMAX™ 2730 DD - AQUAMAX™ 3030 DD - AQUAMAX™ 3540 DD -
AQUAMAX™ 4043 BD - AQUAMAX™ 3540 GHW**

AQUAMAX™

Pressure Washers for professionals: extreme reliability and performance

This guide is designed to help you select the right solution for your pressure washing needs.

PRESSURE WASHERS

Our compact direct drive pressure washers offer enough horsepower to tackle most cleaning and preparation jobs.

The belt drive pressure washers are Graco's top-of-the-line cold water units, designed to tackle the toughest cleaning jobs. They offer features that are required in severe-duty applications.

And if cold water "just won't remove the dirt," we now offer a hot water pressure washer in our range: the AquaMax™ 3540 GHW.

No job is too big for our hot water pressure washer!

When choosing Graco, you can be assured that you are choosing the highest quality product ...

QuikDisconnect™ Tips

Maximize your cleaning power by selecting the tip that best matches the maximum pressure and flow of your pressure washer from the chart at the right. The QuikDisconnect features make it very easy to exchange tips.

High Pressure Gun and Hose

15 meter hose x 3/8" with quick connections, swivel and bend restrictors. Professional-grade insulated trigger gun comes with insulated lance (dual on hot gas)

Diesel Fired Burner

- Burner can run diesel or kerosene
- Maximum outlet temperature of 93°C (200°F) [65°C = 150°F rise]
- Easy coil drain helps prevent freezing in cold weather
- High quality fuel filter/water separator ensures clean fuel supply (Hot Water version only).

Double Belt Drive

For durability and power (AquaMax 4043 BD only)

ELECTRIC START

Hot Direct drive

Cold Belt Drive

Cold Direct Drive

Materials & Applications

Use Graco pressure washers for the most demanding jobs: commercial buildings, bridges and water towers. The AquaMax 3540 GHW hot water pressure washer is for applications where cold water just won't remove the dirt. With hot water you can effectively clean grease, oil or any other heat reactive substance.

You can maximize your cleaning power by selecting the tip that best matches the maximum pressure and flow of your pressure washer from the chart on the opposite page.

Chemical Injector Kit

120 cm suction tube, built-in on direct drive cold water models, modular on other models

Rugged Steel Frame
Reinforced powder coated steel frame with center lift hook
- Gun and hose holder for easy transport and storage

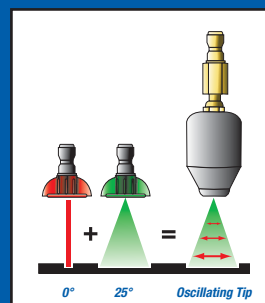

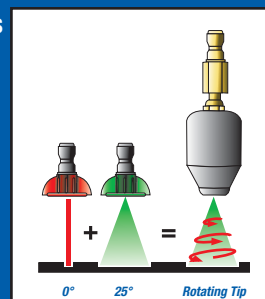

GOOD TO KNOW

ROTATING AND OSCILLATING TIPS

Rotating and oscillating tips increase your cleaning power and decrease your cleaning time. They offer 0° spray impact with 25° coverage. Tips include a filter with quick connection and offer heavy-duty components for long life and reliability. Can be used on pavements, driveways, vehicle tracks, muddy areas, old peeling paints and concrete surfaces.

Gardena® Water Hose Connection

Pump

Triplex piston and ceramic plungers with continuously lubricated packings, for ultimate performance

Tubed Pneumatic Tyres
roll easily over rough terrain and withstand the harsh jobsite environment

Thermal Relief Valve
protects the pump from overheating and prevents excessive packing wear

! TIP

CHEMICAL INJECTOR

The chemical injector kit sucks the chemical component from a bucket and mixes it with the water flow. To apply detergent for misting and rinsing, we advise to use the special (black) low pressure tip.

Tip Selection Chart

	0°	15°	25°	40°	CHEMICAL
TIP DESCRIPTION	Cutting	Chiseling	Flushing	Washing	Chemical
USE	Delivers a concentrated stream that can gouge or cut.	Works like a scraper when used at a 40° angle.	Most common nozzle for general cleaning.	Wide spray for washing or rinsing a large area.	Low pressure nozzle for use with detergent injector.
TYPICAL JOBS	Removes stains from concrete or other hard surfaces.	Strips paint; removes grease, mildew and stains.	Cleans dirt from outer walls, pavements, outdoor furniture, etc.	Washes vehicles, windows, aluminium cladding and other delicate surfaces.	Applies detergent, mists and rinses.
