

FIELDLAZER™

Graco's dedicated Airless Sports Field Stripers

www.graco.com

PROFESSIONAL ADVANTAGES

- **Airless High-Pressure Spray Technology** gives you better coverage on the grass resulting in **Professional, Crisp and Bright Lines**.
- **Simple to Use, Clean and Store**, cutting operation time significantly.
- Spray stencils and corner kicks with the **Removable Spray Gun**.

Pavement and Marking Applications
FIELDLAZER™ S90 - FIELDLAZER™ S100

FIELDLAZER™

Give your Sports Field what it deserves: **QUALITY LINES!!**

FIELDLAZER™, TECHNOLOGY FROM THE LEADER IN STREET STRIPING, ADAPTED FOR FIELD MARKING!

Introduced in 2004, the original Graco FieldLazer S100 striper, currently used by European top soccer clubs, was the first field marker to use proven Graco high-pressure airless paint spray technology. It was created in cooperation with field marking professionals and recognized as one of the top field marking machines.

Now, Graco is proud to introduce an extension to the FieldLazer range:

FIELDLAZER S90

Battery powered simplicity combined with paint saving, high-pressure airless technology. With its Tilt-N-Pour removable hopper, one button operation and proven RAC 5 spray tips, the S90 is designed for easy start-up, use and cleaning, saving you both **time and money**.

One button Operation

Add paint and press the button to start. It's that easy! With low battery indication.

12V Rechargeable, Maintenance Free Battery

Up to 10 football fields per charge

Battery Charger

Bulkhead connection (shown) makes it easy to charge after each use (included)

Easy Out™ Filter (100 mesh)

Large capacity and no-tools removal for smooth operation.

FIELDLAZER S100

Fold-Down Handle

For easy transport

Original Container Siphoning

Eliminates the hassle of cleaning tanks and pots

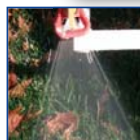

High-Performance

Piston Pump

Job-proven long life design

Materials & Applications

Airless Spraying atomizes the paint, produces fine particles, and gives bright, sharp and uniform lines. Only one pass paints the line completely. Airless sprayed paint dries quicker so the field can be used faster after it's painted.

The FIELDLAZER units handle most striping paints. The S90 model is designed for water-based paint only.

Watch our **application video** at: <http://17.graco.eu.com>

FIELDLAZER S90

Tilt-N-Pour Removable Hopper (22 liters)

- Quickly pour and save leftover paint
- Remove for additional cleaning ease

Removable Hand Gun

- With 7.5 m of hose.
- No-tools removal.
- Just detach the gun to spray stencils, logos or large solid areas.

Adjustable Spray Shields

Crisp, straight lines even in windy conditions (included).
Change spray width, gun height or spray tip without tools.

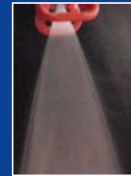

GOOD TO KNOW

FIELDLAZER HIGH-PRESSURE TECHNOLOGY

Operates at over 10 times the pressure of current low-pressure models. The result is **up to 50%** lower paint consumption and **professional bright lines**.

Low-pressure models simply dump paint onto the ground instead of the grass; wasting not only paint but also water, time and money!

All FieldLazer models use high-pressure technology and precision RAC 5 spray tips to provide a spray pattern that coats both sides of the grass blade, not the soil.

FieldLazer provides you with professional, crisp and bright lines while saving paint, water, time and money.

! TIP

FieldLazer LL5 reversible RAC 5 (Reverse-A-Clean®) tips are specially designed to provide crisp sharp line edges and an even paint distribution across the line. Should the tip clog, just turn tip 180° to clear the clog.

Ultimate Stability and Flexibility

- Fieldlazer is equipped with a **three-wheel base design** for easy manoeuvrability around corner kicks, arcs, circles, stencils and straight lines.
- The Fieldlazer S90 is equipped with big turf tyres providing additional stability while making both curves and straight lines.
- **Spray stencils** by removing the gun from the Fieldlazer. The Fieldlazer S90 can be equipped with the stencil kit to extend your reach while stencilling.
