G-FORCE™ II
PRESSURE WASHERS
Graco’s Complete Line of Professional
Pressure Washers

PROVEN QUALITY. LEADING TECHNOLOGY.
HIGH QUALITY, LONG-LASTING GRACO PRESSURE WASHERS

Experienced contractors know the difference. Graco professional pressure washers are recognized as solid investments that perform reliably, year after year.

TRUST YOUR BUSINESS AND REPUTATION TO GRACO

Graco is committed to providing the highest quality pressure washers available, backed by the industry’s best warranty.

AMERICAN BUILT QUALITY SINCE 1926

100% factory-tested and field-proven Graco professional pressure washers are designed and manufactured in the USA with global components.

INDUSTRY-BEST WARRANTY

Behind every Graco sprayer is the industry’s best warranty. You may never use Graco’s warranty—but if you do, we will be there.

GRACO SOLUTIONS THAT KEEP YOU SPRAYING

DRIVE OPTIONS FOR ULTIMATE PRODUCTIVITY

- Direct Drive for compact and lightweight performance
- Belt Drive delivers longer life and less vibration

THE MOST RELIABLE PUMPS IN THE INDUSTRY

- Premium CAT Pump® on select Graco pressure washers
- The most durable, longest-lasting pumps available
- 2X longer life than other pumps

RELIABLE, POWERFUL HONDA® GX ENGINES

- Oil Alert shuts down engine to prevent damage if oil level drops too low
- Thermal sensor prevents pump from overheating in bypass mode
100% HEAVY-GAUGE ALUMINUM FRAMES

- Up to 40% lighter than steel frames and standard on all Graco models
- Corrosion resistant to water and chemicals
- Lifetime Warranty

EXTERNAL PRESSURE UNLOADER FOR TROUBLE-FREE, ADJUSTABLE PRESSURE

- Ability to match application requirements
- Keeps water cooler and prolongs pump life
- Available on 4040 GP and CAT Pumps

EZ START™ PRESSURE RELIEF FOR EASIER STARTING

- Allows water to bypass pump to eliminate pressure buildup in the system—a standard Graco feature
- No need to pull the gun trigger while starting the washer

MADE IN THE USA WITH GLOBAL COMPONENTS
CHOOSE THE RIGHT PRESSURE WASHER

Whether you need a pressure washer for occasional cleaning or regular all-day cleaning and surface preparation jobs, our mission is to fit you to the pressure washer that is sized for the work you do to get the job done right, every time.

EVERYDAY RELIABILITY
Residential Remodeler or Property Maintenance
• Pressure washing multiple days a month
• Typically working on smaller jobs
• Demanding everyday reliability

HIGHER POWER & FLOW
Large Residential and Commercial Contractor
• Pressure washing multiple days a week
• Tackling medium to large projects
• Moving frequently from job to job

SUPERIOR POWER & DURABILITY
Large Commercial or Industrial Contractor
• Pressure washing continuously in less-than-ideal conditions
• Working on large, long-duration projects requiring the most power
• Require extreme durability and reliability

Answer the following questions and refer to the chart to the right to help determine the pressure washer size and capability that best meets your needs.

BELT DRIVE VS. DIRECT DRIVE

There are two main types of pressure washers that deliver top performance. The main difference is life. Choosing the right type depends on how often you will be using the sprayer.

DIRECT DRIVE
Compact Design, Lighter Weight, Fewer Components
• The pump is connected directly to the drive shaft of the engine
• Pump rpm matches that of the engine (usually around 3500 rpm)

BELT DRIVE
Lower RPM/Operating Temperature, Longer Pump Life
• The pump is connected to a pulley and belt system that is connected to the engine
• Allows the pump to run at a much lower rpm (typically 900-1700 rpm)
• The pump is mounted away from the engine and has a crankcase with more oil capacity
• Allows the pump to run much cooler than a direct drive pump
• The pump vibrates less and suffers less pump fatigue
EVERYDAY RELIABILITY

REMODELER & PROPERTY MAINTENANCE

G-Force II 3325 HA-DD, 3230 HA-DD, and 4240 KA-DD pressure washers are the best choices for medium duty applications. They’re light, compact, and the perfect choice when you need consistent reliability for the occasional cleaning job.

- Honda Engine, AR Pump, 3300 psi, 2.5 gpm: 3325 HA-DD 25N634
- Honda Engine, AR Pump, 3200 psi, 3.0 gpm: 3230 HA-DD 25N635
- Kohler Engine, AR Pump, 4200 psi, 4.0 gpm: 4240 KA-DD 25N636

HIGHER POWER & FLOW

LARGE RESIDENTIAL OR COMMERCIAL

G-Force II 4240 HA-DD and 4040 HG-DD pressure washers are built tough to handle weekly use and deliver high flow and pressure in a compact, durable package.

- Honda Engine, AR Pump, 4200 psi, 4.0 gpm: 4240 HA-DD 25N637
- Honda Engine, GP Pump, 4000 psi, 4.0 gpm: 4040 HG-DD 25N677

SUPERIOR POWER & DURABILITY

LARGE COMMERCIAL OR INDUSTRIAL

G-Force II 4040 HC-DD, 4040 HG-BD, and 4040 HC-BD pressure washers are Graco’s top-of-the-line units, designed to tackle the toughest cleaning jobs. With the highest performance available for tough, all-day cleaning and surface preparation, these models can easily handle even the most demanding jobs.

- Honda Engine, CAT Pump, 4000 psi, 4.0 gpm: 4040 HC-DD 25N678
- Honda Engine, GP Pump, 4000 psi, 4.0 gpm: 4040 HG-BD 25N679
- Honda Engine, CAT Pump, 4000 psi, 4.0 gpm: 4040 HC-BD 25N680

THE PRESSURE UNLOADER

Letting the motor run while not spraying can build up pressure and excess heat in the system, causing the pressure washer to overheat and shut down. The pressure unloader prevents overheating and prolongs the life of your sprayer.

Adjustable pressure unloaders, a standard Graco feature, vs. fixed unloaders allow you to vary the pressure based on the application.

INTEGRATED—ideal for jobs with constant spraying while the motor is running.

EXTERNAL—ideal for longer jobs with lots of stops and starts. Allows water to run cooler for greater protection against overheating.

Model Shown: 4040 HG-DD

Model Shown: 4040 HC-BD
TIP SELECTION
MAXIMIZE YOUR CLEANING POWER

TIP ORIFICE SIZE
You can maximize your cleaning power by selecting the tip that best matches the maximum pressure and flow of your pressure washer from the chart below.

For lower pressure spraying, choose a larger size tip to maximize your flow and cleaning power.

<table>
<thead>
<tr>

ROTATING AND OSCILLATING TIPS
Rotating and oscillating tips increase your cleaning power and decrease your cleaning time. They offer 0° spray impact with 25° coverage. Tips include filter with quick connect and offer heavy-duty components for long life and reliability. For use on sidewalks, driveways, track vehicles, muddy areas, old peeling paints, and concrete surfaces.

- **16X669** Telescoping Wand Extension: 6-24 ft (1.8 m - 7.3 m)
- **16X670** Tele-Pole Belt — For use with Telescoping Wand Extensions
- **17A534** Wand Extension: 12 in (0.30 m)
- **17A535** Wand Extension: 3 ft (0.91 m)
- **17A536** Wand Extension: 4 ft (1.22 m)
- **16X668** Wand Extension: 6 ft (1.82 m)
- **17A537** Wand Extension: 8 ft (2.43 m)
- **17A538** Wand Extension: 10 ft (3.0 m)

## Hose Reels and Non-Marking Hose
- **244783** 3/8 in x 50 ft (10 mm x 15 m) Non-marking Hose with Quick Disconnects
- **16X667** 3/8 in x 100 ft (10 mm x 30 m) Non-marking Hose with Quick Disconnects
- **16X665** Hose Reel Kit: 100 ft (30 m) hose capacity, 3500 psi (240 bar)
- **16X664** Hose Reel Kit: 100 ft (30 m) hose capacity, 5000 psi (345 bar)

## Pro Pak — Promotional pricing with a purchase of any Graco pressure washer
- **25N726** Includes: 18 in (45.7 cm) Surface Cleaner, 6 ft (1.8 m) Extension, Ball Valve, Gutter Cleaner, Roto Nozzle
- **25N727** Includes: 20 in (50.8 cm) Surface Cleaner, 6 ft (1.8 m) Extension, Ball Valve, Gutter Cleaner, Roto Nozzle

## Wet Sandblasting
- **244766** Sandblasting Kit — Includes fittings, couplers, clamps, adapters, housing sealant, and hose assembly (tip not included)
- **805321** Sand Blast Tip

## Horizontal Surface Cleaner
- **16X666** 18 in (45.7 cm) diameter
- **116562** 20 in (50.8 cm) diameter

## Couplers and Attachments
- **16X682** Parts Box — Most common tips, couplers, o-rings
- **16X680** Gutter Cleaning Attachment
- **16X679** Ball Valve Water Shutoff
- **127529** Chemical Injector Kit with QDs
- **801112** Pump Inlet Screen
- **801009** Coupler for Wand Extensions 1/4 in (6.4 mm)
- **16X671** Female Socket, 1/4 in (6.4 mm) HP QD
- **16X672** Female Socket, 3/8 in (9.5 mm) HP QD
- **16X673** Male Socket, 1/4 in (6.4 mm) HP QD
- **16X677** Male Plug, 1/4 in (6.4 mm) HP QD
- **16X678** Male Plug, 3/8 in (9.5 mm) HP QD
- **16X674** Male Socket, 3/8 in (9.5 mm) HP QD
- **16X675** Female Plug, 1/4 in (6.4 mm) HP QD
- **16X676** Female Plug, 3/8 in (9.5 mm) HP QD

SPRAY WITH CONFIDENCE

Industry-Leading Warranty Protection

Every Graco pressure washer is backed by the industry’s best warranty coverage.

5-YEAR WARRANTY ON AR PUMPS
If the AR Pump fails from normal use, we’ll replace it under warranty for the original owner within the first 5 years.

5-YEAR WARRANTY ON GENERAL PUMPS
If the General Pump fails from normal use, we’ll replace it under warranty for the original owner within the first 5 years.

5-YEAR WARRANTY ON CAT PUMPS
If the CAT Pump fails from normal use, we’ll replace it under warranty for the original owner within the first 5 years.

LIFETIME FRAME WARRANTY
If the frame fails from normal use, we’ll replace it under warranty for the original owner for the life of the sprayer.

1-YEAR WARRANTY
Coverage against defects in materials and workmanship on the entire sprayer.

3-YEAR WARRANTY ON HONDA ENGINES
If the Honda engine fails from normal use, we’ll replace it under warranty for the original owner within the first 3 years.

3-YEAR WARRANTY ON KOHLER ENGINES
If the Kohler engine fails from normal use, we’ll replace it under warranty for the original owner within the first 3 years.

CONVENIENT SERVICE
Graco offers more than 5,500 authorized distributor locations in North America and over 700 locations to administer warranty repair.
