

TRUMIX XT™

Variable-Ratio Mixing Systems

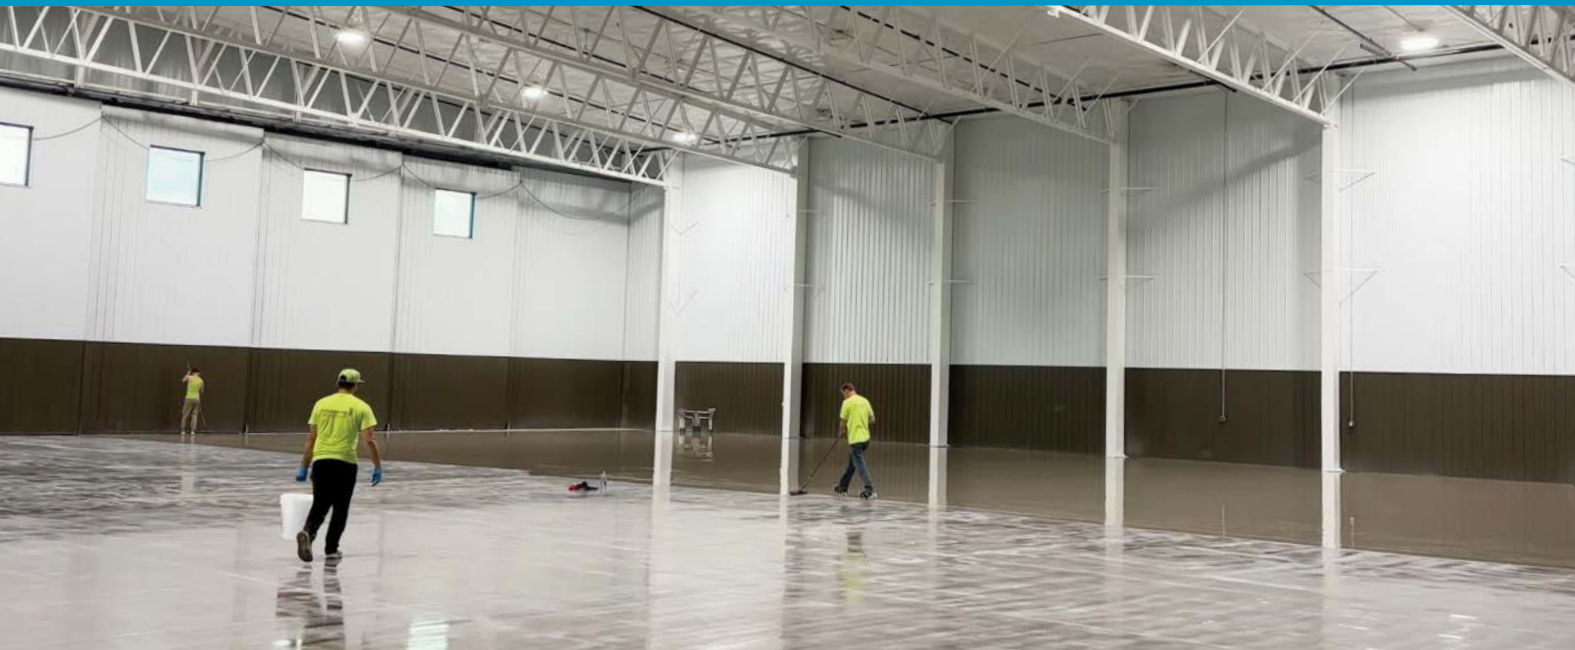

M O V I N G M A T E R I A L S T H A T M A T T E R ™

MEET YOUR NEW MIX STATION

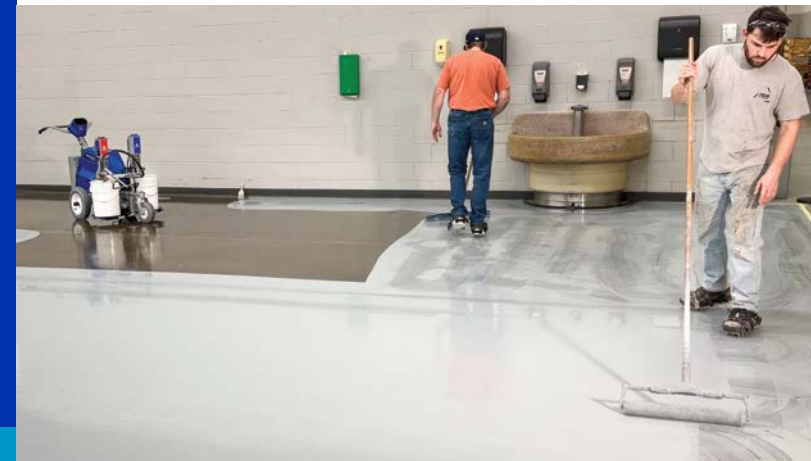

Gone are the days of manually mixing in buckets and worrying about costly mix errors. Graco's TruMix XT variable-ratio mixing systems are a revolutionary solution for mixing 2-component floor coatings. These systems are capable of supporting nearly any ratio with superior accuracy and mix consistency over traditional bucket batch methods.

- ✓ **FREES UP LABOR FROM MIXING**
- ✓ **ELIMINATES MIXING ERRORS**
- ✓ **MIX UP TO 567 LITERS (150 GALLONS) PER HOUR**
- ✓ **SUPPORTS FULL RANGE OF RATIOS FROM 1:1 TO 6:1**
- ✓ **REDUCES MATERIAL WASTE**
- ✓ **MAXIMIZES MATERIAL WORKING TIME**

FREE UP LABOR FROM THE MIX STATION

TRUMIX XT REDUCES MIXING LABOR, INCREASING PRODUCTIVITY AND PROFITABILITY

REDUCE JOB LABOR COSTS

Support Jobs With Smaller Crews

INCREASE CREW PRODUCTIVITY

Re-allocate Labor To Increase Productivity And Quality

ACCELERATE GROWTH

Complete More Jobs And Larger Jobs

A PERFECT MIX EVERY TIME

WITH TRUMIX XT, YOU'LL NEVER HAVE TO WORRY ABOUT WET POURS OR MIXING ERRORS

SIMPLE OPERATION

SmartSync™ Control Guides Operator Through The Entire Setup

- Auto Prime™ primes both pumps and loads the hose with mixed material with the push of a button
- Instant Ratio Check verifies that you are on ratio before you begin your job
- Custom Batch Settings allow you to dispense the exact amount of material needed
- Clean the entire system in less than 5 minutes

PRECISE RATIO CONTROL

SmartSync™ Control (PATENT PENDING)

- Advanced control system constantly monitors the system's performance and makes instantaneous adjustments to ensure the best possible mix

Xtreme Torque™ Brushless Motor (PATENT PENDING)

- 4X finer resolution than traditional motors for superior ratio accuracy and control

SUPERIOR MIX CONSISTENCY

CrossLink™ Multi-Stage Mix Hose (PATENT PENDING)

- Patent-pending multi-stage mixing process provides superior mix quality over traditional bucket-batch methods

PEACE OF MIND

RatioGuard™ Ratio Assurance

- Multi-point monitoring system actively detects potential off-ratio conditions before they can be dispensed

Integrated Ratio Check

- Quick and easy ratio check procedure at start-up ensures a smooth and successful application

MIX WHAT YOU NEED, WHEN YOU NEED IT

TRUMIX XT MIXES MATERIAL ON DEMAND, GIVING YOU THE FLEXIBILITY TO MIX MATERIAL AS YOU NEED IT

REDUCE WASTED MATERIAL

TruMix XT minimizes wasted material by allowing you to mix only what you need. This is great for situations where a partial kit is desired, such as coating a small area or working with a fast-curing material.

BATCH MODE—NO MEASURING REQUIRED

The BATCH feature allows you to choose exactly how much material is mixed every time — from 0.75 to 95 liters (0.20 to 25 gallons). No measuring is required — just specify the amount and exactly that much mixed material will be dispensed!

MAXIMIZE MATERIAL WORKING TIME

The challenge of applying fast-curing materials just got easier. With TruMix XT, material is dispensed instantly after mixing, giving you every possible second of working time.

INCREASE CREW PRODUCTIVITY

Mix and apply faster with fewer people at the mix station.

PROCONNECT™ SWAPPABLE PUMPING SYSTEM (PATENTED)

- Entire fluid system can be swapped in seconds—without tools!
- Avoid material compatibility issues by using dedicated pumping systems for different coatings

1) Remove retaining clamps and pressure transducer connections

2) Remove ProConnect Pumping System

TRUMIX 150 XT

TRUMIX XT

COMPACT, HIGH-OUTPUT MIX STATION

Compact yet powerful, the TruMix 150 XT is the breakthrough mixing solution commercial and industrial flooring contractors can depend on. This system is capable of mixing up to 567 liters (150 gallons) per hour with superior accuracy and mixing consistency over traditional bucket batch methods.

Serves Wide Variety Of 2-Component Floor Coatings

- Epoxies
- Polyspartics
- Polyurethanes
- And more!

Supports The Full Range Of Ratios

- Communicating pumps support hundreds of ratios with the push of a button
- 1:1 to 6:1

Mixes Up To 567 liters (150 Gallons) Per Hour

- 3X more output than typical mix station crew

Easy To Transport

- The compact, lightweight design is easy to transport and move around jobsites

ProConnect Pumping System for TruMix XT	2003160
Replacement Mixing Hose (1 Pack)	2004623
Replacement Mixing Hoses (3 Pack)	2002743
Ratio Check Cups (25 Pack)	2003161

MAXIMUM JOBSITE MOBILITY

The TruMix XT has the added benefit of a built-in battery so you can mix where you want, regardless of available power. This is ideal for jobs with limited or unreliable power as it can dispense up to 946 liters (250 gallons) per charge. You can even dispense material directly to the floor for maximum working time with fast-curing materials.

Mobile Dispense

- System can be used to fill buckets as well as dispense straight to the floor for maximum material working time

Mixes Up To 454 liters (120 gallons) Per Hour

- Increase crew productivity and tackle projects faster

Up To 946 liters (250 gallons) Per Charge

- Battery power allows you to mix where you want, regardless of power availability
- 120V plug-in for high-volume jobs

Container Flexibility (PATENT PENDING)

- Removable bucket holder allows system to be used with a wide variety of off-the-shelf high-capacity containers
- Ideal for situations where material is stored in drums or totes
