

TOUGHTTEK® MP40

Rotor Stator Mixing Pump

DO IT ALL WITH ONE MACHINE

Mix, pump and apply pre-blended, self-leveling powder materials with a single, easy-to-use machine. Integrated "do-it-all" design increases productivity while saving on labor costs. Innovative water-metering system regulates the flow rate for the most consistent material mix — ideal for self-leveling topping applications.

Just pour and go!

Automatic operation delivers material on-demand with less labor

Lower Costs = More Profit!

Maximize productivity so you can do more jobs

BENEFITS YOU'LL APPRECIATE!

High-performance — Mix and pump up to 200 bags an hour to get the job done faster

Integrated mixing — On-demand powder mixing — just connect water source and break open bags into hopper

Small footprint — Easy to maneuver and position where you need it

Easy maintenance — Two-piece adjustable rotor stator pump means minimal wear parts to maintain

Built-in cleaning hose — Utilizes the water connected to the system to make cleaning fast and easy
