

Fusion[®] ProConnect[™]

A perfect gun rebuild in seconds

The new Fusion[®] PC[™] gun offers a faster rebuild by simply replacing a cartridge.

- Reduced parts - O-rings, side seals and fluid section all in one cartridge
- Simply replace the cartridge – it is like a factory quality reset
- Minimize downtime and get your job done faster

PROVEN QUALITY. LEADING TECHNOLOGY.

Rebuild faster than any other (air-purge) gun

Fusion® PC™

The old days of spending time and effort cleaning the fluid section of a spray gun are over! The new Fusion PC gun offers a faster rebuild by simply replacing a cartridge, which keeps you spraying and minimizes costly downtimes.

Advantages:

- Reduced parts - O-rings, side seals and fluid section all in one cartridge
- Simply replace the cartridge – it is like a factory quality reset
- Minimize downtime and get your job done faster

Performance

The new Fusion PC gun will not let you down since it is made with a long-life mixing chamber and a strong long-lasting cartridge for low maintenance requirements and less downtime. With the ProConnect technology in the Fusion PC gun, the entire fluid section including the side seals and all associated O-rings are in one single cartridge. This means you can stock fewer parts and have a perfect rebuild in seconds, using a factory tested replacement cartridge.

- Easy air-blast tip cleaning reduces build-up and tip clogging
- The hand-tightened front cap means no tools are needed to clean and maintain mix chamber and cartridge
- The single cartridge makes it possible to do a factory rebuild on the job site
- Integrated fluid non-return valves for cross-over containment
- The same spray performance and output as the Fusion AP

Retrofit

Many of the time-tested and trusted Fusion AP parts are used in the construction of the Fusion PC. The Fusion PC retrofit kits are developed so you can actually upgrade your existing Fusion AP guns to take advantage of the new ProConnect technology.

Mix Chamber

The Fusion ProConnect Round, flat & wide mix chambers are protected by an ultra-durable Chromex coating and have been engineered to smoothly slide into position without damaging the side seals. In addition, these mix chambers incorporate an alignment groove specifically designed to ensure proper assembly.

- Ultra durable Chromex coating - last up to 10 times longer than standard Fusion AP mix chambers
- Ramp design for quick assembly and proper sealing
- Alignment groove ensures proper assembly

Flat Mix Chamber

Round Mix Chamber

Rebuild like a pro

How to remove and replace a Fusion ProConnect cartridge:

Remove the aircap and retaining ring

Remove the cartridge

Press the new PC fluid cartridge onto the mix chamber

Install the retaining ring and aircap

25P660	Fusion PC Cartridge Troubleshooting Tools Kit
18C115	Complete Gun O-ring Kit

All Fusion PC guns and retrofit packages come with 3 cartridges included.

ABOUT GRACO

Founded in 1926, Graco is a world leader in fluid handling systems and components. Graco products move, measure, control, dispense and apply a wide range of fluids and viscous materials used in vehicle lubrication, commercial and industrial settings.

The company's success is based on its unwavering commitment to technical excellence, world-class manufacturing and unparalleled customer service. Working closely with qualified distributors, Graco offers systems, products and technology that set the quality standard in a wide range of fluid handling solutions. Graco provides equipment for spray finishing, protective coating, paint circulation, lubrication, and dispensing sealants and adhesives, along with power application equipment for the contractor industry. Graco's ongoing investment in fluid management and control will continue to provide innovative solutions to a diverse global market.
