POWERFILL 3.5 STANDARD - POWERFILL 3.5 PRO - POWERFILL 3.5 PRO XL

POWERFILL

DISCOVER THE BENEFITS

FIRST BATTERY-POWERED DRYWALL LOADING PUMP

Discover the industry's first cordless, battery-powered loading pump. It is designed to fill all manual, automatic taping and finishing tools easily. While the pump fills your tools automatically, you can focus on finishing while getting less fatigued. This will enable you to get more finishing done at the same time. The next step is upscaling your business to more and larger jobs!

POWERFILL | MAKES YOUR JOB SO MUCH EASIER!

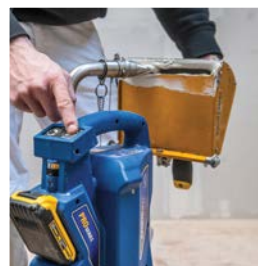

Mud pan

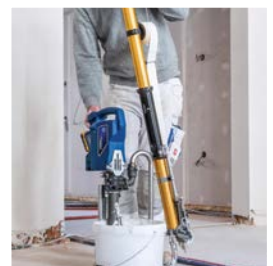

Hawk

Banjo

Flat box

Automatic taper

Fills all your taping and finishing tools in no time

- Durable PowerStroke™ pump inside
- High quality components
- Toolless design

Raise your profits, upscale your business!

Better output & finishing quality

Deliver smoother finishing and take on more and larger jobs

CONSISTENT FLOW ALL DAY, EVERY DAY

- Balanced, double-acting output for the smoothest material delivery and maximum efficiency
- Easy programmable to refill tools automatically with precision
- Inlet filter has 25% more filter area than manual pumps

FILLS ANY TOOL, ANY BRAND

- Compatible with all brands of ATF tools (Automatic Taping and Finishing) and containers
- Perfect to transfer materials to mud pans, hawks, banjo's, hopper guns, ...

Never hand pump again!

Reduce fatigue, back & muscle injuries

Forget endless bending and strenuous hand pumping

- PowerFill's ergonomic design allows you to pump and fill while standing up
- The gooseneck accessory makes filling your tools a piece of cake
- Fully rotatable. Position above the bucket to avoid dripping
- Left or right-hand side operation
- Adjustable to any bucket height

Take a break, PowerFill does the job!

Save heaps of time, easy does it

Use a battery-powered pump that makes you work faster & easier.

FASTER

- Work faster and reduce loading times
- Pumps up to 13 liter per minute consistently
- Battery charges in 35 minutes, lasts up to 200 liters per charge

EASIER

- Use easy cleaning mode for smooth cleaning
- One button pumping: activate the pump at the press of a button
- Enjoy hands-free bulk transfer

PORTABLE

- Lightweight, compact design
- Removable powerhead, no tools needed

CHANGING THE WAY YOU WORK FOREVER

1 ERGONOMIC HI-RISE FILL TUBE

- Allows you to stand upright while filling tools, protecting your back while eliminating fatigue
- Tube rotates to position the outlet where you want, including above bucket to save space and contain drips
- Includes filler attachments for angle and flat boxes

2 PORTABLE WITH REMOVABLE POWERHEAD

- Within seconds and without tools you can remove powerhead from pump for storage or easy cleaning thanks to ProConnect™ fitting
- PowerFill is suitable for right- or left-handed operation

3 EASY TO OPERATE AND PRECISE FILLING

- One button pumping totally eliminates fatigue and injury
- SmartControl™ Pro has Precision Fill technology for automatic refill of tools to your preset level
- Choose hands-free Continuous run mode for bulk material transfer or self-cleaning

PRO CONNECT

4 BRUSHLESS DC MOTOR WITH VARIABLE SPEED

- ProControl flow adjustment lets you work at any speed with total control of output material

5 ADJUSTABLE STABILIZER LEG

- No tools needed to adjust to fit most buckets and containers
- Oversized foot bracket and stabilizer arm keeps pump in place on bucket

6 BATTERY-POWERED BY DEWALT

- Compatible with any 18V MAX Lithium-ion DEWALT® battery
- Pumps up to 200 liters per charge for all-day use

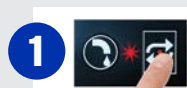

7 DURABLE POWERSTROKE PUMP

- Pumps up to 13 lpm at a consistent speed every day
- Toolless pump cylinder, inlet and filter removal for quick access and cleaning
- The PowerStroke pump is made of anodized aluminum and stainless steel and is virtually maintenance-free

AUTOMATICALLY FILL WITH PRECISION FILL

- Fill your tools, pans or hawks to your preset level - with the push of a button
- Accuracy to within 7 gr for each fill - regardless of battery condition or pump speed
- Hands-free, continuous pumping mode is perfect to load or unload bulk containers and for easiest cleaning - just let it run!
- Increases overall job productivity so you can get more done!

PROGRAM IN 3 EASY STEPS

Press and hold **Program button** until light flashes

Press **Pump button** and fill to desired level

Press **Program button** to save setting

CHOOSE THE RIGHT SERIES FOR YOUR BUSINESS

OUR DRYWALL FINISHING PRODUCT RANGE

Drywall finishing

Your skills

Our solutions

Smooth job

YOUR SKILLS, OUR SOLUTIONS, SMOOTH JOB

Check out our range of solutions to complete your drywall finishing toolset with robust and durable products. They are designed to make your drywall finishing work easier and more profitable.

The 4 quality levels of drywall finishing

Q1 For finishing without decorative requirements

- Fill joints and visible fixings with joint compound
- Embed tape on joints
- Remove excess joint compound

Q2 For minimal smooth surface

- Apply joint compound on top of Q1
- Make seamless transition between joint and surface area
- Sand

Q3 When high visual surface requirements apply

- Apply a thin layer of compound to the gypsum board on top of Q2
- Apply full surface pore filling
- Sand

Q4 For the highest decorative standards

- Apply ± 1 mm full surface skim coat

Our manual to (semi-)automatic solutions

Finishing drywall can be done manually or automatically. When thinking about increasing speed, boosting your business or suffering less fatigue, check out our robust solutions. Graco has the right tools for all quality levels (Q-levels).

- Prosurface smoothing blades for manual finishing
- PowerFill industry's first battery-powered loading pump
- Level up with a Continuous Flow System
- Perfect skim coating with HD 3-in-1 Airless sprayers

	Manual	(Semi-) Automatic	Automatic
Q1  Jointed drywall surface			
Q2  Drywall surface with minimal smoothness			
Q3  Extra smooth drywall surface			
Q4  Skim coated drywall
