

DISCOVER THE UNIQUE POWERFILL™ PUMP FOR DRYWALL FINISHING

POWERFILL™ 3.5

KEY FEATURES AND BENEFITS OF THE POWERFILL LOADING PUMP

Graco presents the first battery-powered loading pump for drywall finishing. Combining robust quality with a user-friendly design, the PowerFill pump offers a game-changing solution that allows drywallers to work more easily and get more finishing done in less time and without the usual fatigue.

PowerFill features

ERGONOMIC HI-RISE FILL TUBE

- Stand up while filling all your tools using the hi-rise rotatable fill tube and give your back a rest
- No tools or gaskets needed thanks to the O-ring seal design
- Comes with filler attachments for angle and flat boxes

EASY TO OPERATE AND PRECISE FILLING

- Enjoy manual or automatic operation and filling to preset level using SmartControl™
- Push one button to launch
- Choose hands-free continuous run mode for bulk material transfer or self-cleaning

BRUSHLESS DC MOTOR WITH VARIABLE SPEED

- ProControl™ flow adjustment lets you work at any speed with total control of output material

BATTERY-POWERED BY DEWALT

UNIQUE

- Comes with lightweight DEWALT 18V MAX Lithium-Ion battery with only 35 minutes charge time
- Pumps up to 200 liters per charge

PORTABLE WITH REMOVABLE POWERHEAD

- Within seconds and without tools you can remove powerhead from pump for storage or easy cleaning thanks to ProConnect® fitting
- PowerFill is suitable for right- or left-handed operation

ADJUSTABLE STABILIZER LEG

- No tools needed to adjust to most bucket heights and containers; inlet is kept at bottom
- Oversized foot bracket and stabilizer arm keep pump in place on bucket

DURABLE POWERSTROKE™ PUMP

- The PowerStroke™ pump is made of anodized aluminum and stainless steel
- Pumps up to 13 lpm
- Tool-less pump cylinder, inlet, and filter removal for quick access and cleaning

Your benefits

SAVE TIME & WORK EASIER

Focus on finishing while PowerFill fills your tools with compound consistently throughout the day, every day. Make the job easier, as PowerFill allows you to save your energy and concentrate on delivering the best finishing.

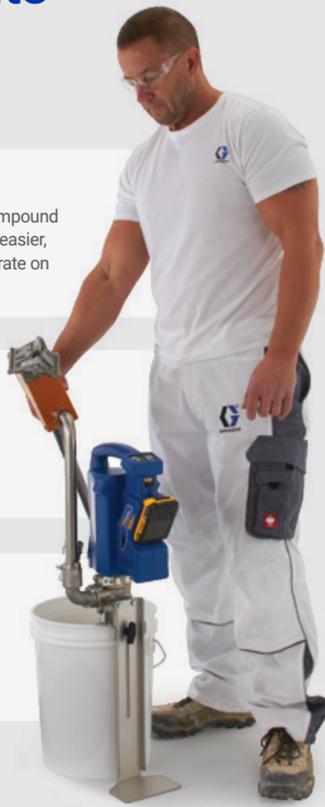

REDUCE FATIGUE & INJURIES

It's all about ergonomics. No more bending and manual pumping. Work standing up and take a break while the PowerFill pump does the job.

RAISE YOUR PROFITS

Reduce labor hours, increase productivity, cut injury-related downtime costs, and take on more and larger projects.

Which PowerFill fits your needs?

Standard Series

STANDARD SERIES
