

August 14, 2024

US EPA NESHAP 40 CFR, Part 63 Subpart HHHHHH regulations for surface coating applications require that all spray-applied coatings must be applied with a high volume, low pressure (HVLP) spray gun, electrostatic application, airless spray gun, air-assisted airless spray gun, or an equivalent technology that is demonstrated by the spray gun manufacturer to achieve transfer efficiency comparable to one of the spray gun technologies listed above for a comparable operation. The versions of the Graco spray guns listed below comply with US EPA NESHAP 40 CFR, Part 63 Subpart HHHHHH regulations.

Gun Model No.	Description	Spray Technology
288935 thru 41 288952 thru 54 289034 thru 35 289110 289541 288960 thru 61 288967 thru 69 288976 thru 78 288985	Graco AirPro™ Pressure Feed	HVLP
289005 thru 06 289014 thru 15 289023 thru 24	Graco AirPro™ Gravity Feed	HVLP
289030 thru 31 289993 thru 94	Graco AirPro™ Siphon Feed	HVLP
