Flexible Configurations, Flexible Locations

Whether managing one fluid or up to eight, operating from hazardous or non-hazardous locations, ProDispense gives you total control.

**CONSISTENT DISPENSE**
- Deliver the exact volume of fluid every time
- Dispense one fluid or many fluids at a time

**MULTIPLE DISPENSE OPTIONS**
- Station (manual) mode: Dispense activated by operator
- Recipe (automatic) mode: Recipe controls order and amount of fluid dispensed
- Combination dispense: Recipe includes automatic and station mode dispense

**WIDE DISPENSE RANGE**
- 10 cc to hundreds of gallons dispensed with an accuracy of ±1 percent or less

**EASY INTEGRATION**
- Local or integrated control
- Connects to PLC and barcode scanners
- Network data collection

**FLEXIBLE CONFIGURATION**
- Each Fluid Control Module (FCM) manages two fluid panels
- System manages up to eight fluids

**FLEXIBLE LOCATION**
- Wired Remote Operator Station for activation in non-hazardous locations
- Wireless Remote Operator Station for activation in hazardous locations

**FLUID PANELS DESIGNED FOR A VARIETY OF MATERIALS**
Seven fluid panel configurations allow for a wide range of material, viscosity and flow rates.

**Vehicle Fluid Dispense**
- Oil
- Brake fluid
- Coolant
- Power steering fluid
- Transmission fluid
- Windshield washer fluid

**Dispense Applications**
- Paint/solvent
- Grease
- Hydraulic fluids
- Injection mold release
- Dye injection
- Adhesive

G3000 Meter Fluid Panel for grease and paint
Oil Meter Fluid Panel for lubricants and oil
Helical Gear Meter Fluid Panel for high viscosity fluids
Fast and Accurate Dispensing

Graco’s ProDispense is a cost-effective and user-friendly electronic system that dispenses preset amounts of fluids. The ProDispense system allows durable goods manufacturers to quickly and accurately fill cavities with oil, grease, water or other industrial fluids in assembly line environments or dispense fluids where accuracy is essential. ProDispense can deliver up to eight different fluids at multiple dispense points, accurately measure volume, track material usage and report results in either non-hazardous or hazardous areas.

Operating Precision

User interface provides simple operation and data entry. Each dispense will deliver the correct fluid volume or the system will alarm.

- Full color display shows dispense status
- Progress of each fluid and overall recipe dispense
- Recipes programmed to specific fluid, volume target and dispense order

DISPENSE RECIPES FLEXIBILITY

- Up to 50 dispense recipes
- Up to 10 items per recipe, including specific fluid and timed dispense pause

MATERIAL TRACKING

- Each dispense key data is recorded with date and time stamp
- Reporting capability tracks volume, usage and dispense results for process verification
- Job logs and error reports can be seen on screen or downloaded to USB memory
Operate ProDispense from Remote Location

For recipe mode only
With the optional wireless start/stop switch, an operator can activate ProDispense in a hazardous location, like a spray booth. This allows fluid panels to remain separate in a non-hazardous area – without wired connections to the stop/start switch.

For recipe mode or individual station dispense mode
With the optional wired start/stop switch, ProDispense can be activated remotely by an operator in a non-hazardous area.
## Ordering Information

### Build Your Own System

#### 1. Select a Module

<table>
<thead>
<tr>
<th>Part Number</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>26A070</td>
<td>System Control Module Assembly (including 1 Advanced Display Module (ADM), 1 Fluid Control Module [26A134] which controls 2 fluid panels)</td>
</tr>
<tr>
<td>26A134</td>
<td>Fluid Control Module (FCM) expands base system by 2 fluid panels. Up to 3 modules can be added to each base system. Additional FCM needed only if more than 2 fluid panels need to be controlled</td>
</tr>
</tbody>
</table>

ABOUT GRACO

Proven Quality. Leading Technology.

Founded in 1926, Graco is a world leader in fluid handling systems and components. Graco products move, measure, control, dispense and apply a wide range of fluids and viscous materials used in vehicle lubrication, commercial and industrial settings.

The company’s success is based on its unwavering commitment to technical excellence, world-class manufacturing and unparalleled customer service. Working closely with qualified distributors, Graco offers systems, products and technology that set the quality standard in a wide range of fluid handling solutions. Graco provides equipment for spray finishing, protective coating, paint circulation, lubrication, and dispensing sealants and adhesives, along with power application equipment for the contractor industry. Graco’s ongoing investment in fluid management and control will continue to provide innovative solutions to a diverse global market.
