## President 4-Ball Pump

### New Design offers Reduced Maintenance and Longer Life

Graco's President 4-Ball pump features an improved piston seal that has been shown to last 50% longer than previous designs. Additionally, the updated product offers an enclosed wet cup and spring loaded packings. These innovations minimize operator interaction resulting in less maintenance and ensuring consistent lubrication and loading for longer packing life versus a traditional open wet cup design.

These 4-Ball pumps lowers are offered as standard configuration in the President 4-Ball pump assemblies. The following models are available for sale:

Pump Ratio	2:1	2:1	3:1	3:1	3:1	3:1
Pump Material	SST	CS	SST	CS	SST	CS
Configuration	Standard	Standard	Standard	Standard	Stubby	Stubby
Output per cycle (cc)	890	890	610	610	610	610
Motor	President	President	President	President	President	President
Maximum working pressure psi (bar)	360 (25)	360 (25)	500 (34)	500 (34)	500 (34)	500 (34)
Maximum Air Input Pressure psi (bar)	180 (12)	180 (12)	150 (10.3)	150 (10.3)	150 (10.3)	150 (10.3)
Output at 60cpm gpm (lpm)	13 (49.2)	13 (49.2)	9.7 (36.9)	9.7 (36.9)	9.7 (36.9)	9.7 (36.9)
Old Pump PN: (open wet cup)	220563	220560	220564	220561	239854	239855
<b>New Part Number</b>	<b>24H629</b>	<b>24H997</b>	<b>24H628</b>	<b>24H627</b>	<b>24J075</b>	<b>24J074</b>
