Quality First

At Graco we pride ourselves on providing best-in-class products. Engineered solutions are manufactured in our own facilities, with the highest standards in the industry. We provide you with world-class customer support and expertise to help solve your lubrication challenges.

Global Reach

Graco has facilities and distribution partners across the globe to provide you with the products and service you need, where you live. Plus, Graco has dedicated field experts in all areas of the world to support the products we sell.

Product Capabilities

Graco has a broad range of products to provide solutions that meet your needs. Our products are engineered and tested to perform in the harshest environments so you can be certain your equipment is protected and working at peak performance.

Electric Dyna-Star

Safety Move Pump
Built-in lift ring is rated to 500 lbs (226 kg).

Graco Advantage Drive™
Hardened steel gears are lubricated for life and sealed to keep contaminants out for longer lasting performance.

Direct Mount Electric Vent Valve
Compact design means less parts to break or wear out.

Low-Level Sensor
Alerts low grease status and self-cleans without a follower plate.

Tube-In-Tube
Provides simple and direct venting and filling to the foot of the pump.

GLC2200 Controller
Monitoring LEDs
LEDs let you know what your system is doing at a glance.

Digital Readout
Easy to read digital display makes it simple to program and monitor your equipment.

Visual and Audible Alarms
In-cab visual and audible alarms let the operator know your equipment needs attention.

Electronic Fuel Pump
- 120 l/min (3.15 USgal/min) max flow rate
- 150 bar (2175 psi) max pressure
- 380 µm steel mesh

Remote Fill Manifold
Enables clean and efficient ground-level filling up to 5,000 psi (344 bar).

M23 Connector
Saves installation time.

Adjustable Motor and Amp Control
Make adjustments with the turn of a dial. LED status lights.

Mechanical Auto-Fill Shutoff
Shuts off the fill pump for clean, trouble-free refilling without electronics.

Strong 12 Gauge Steel Reservoir
Available in 60 lb (27 kg) or 90 lb (41 kg) reservoirs. Matches common bolt pattern.

Remote Fill Manifold
Ground-level fill port eliminates climbing
Spill-free, single-person operations
Mechanical system enables mine-safety, powered-down, refilling best practices

Low-Level Sensor
Alerts when lubricant is low, not out
Reliable, follower plate-free operation
Use with oil to NLGI #2 grease on off-road mobile equipment

GLC2200 Controller
Monitoring LEDs
LEDs let you know what your system is doing at a glance.

Digital Readout
Easy to read digital display makes it simple to program and monitor your equipment.

Visual and Audible Alarms
In-cab visual and audible alarms let the operator know your equipment needs attention.

External Filter
• 400 µm steel mesh
• 5,000 PSI (344 bar) max pressure

Accessories

Red Alert Filter
- 380µm, 36 in² steel mesh
- Visual alert for filter service

Inline Filter
- 400µm steel mesh
- 5,000 PSI (344 bar) max pressure

About Graco
Since 1926, Graco remains proud to offer best-in-class industrial fluid handling equipment. The field-proven Graco Dyna-Star® family delivers on expectations for reliable, automatic grease dispensing, even in the harshest environments demanded by off-road mobile applications.
About Graco

Since 1926, Graco remains proud to offer best-in-class industrial fluid handling equipment. The field-proven Graco Dyna-Star® family delivers on expectations for reliable, automatic grease dispensing, even in the harshest environments demanded by off-road mobile applications.

Dyna-Star Electric Pump

- Reduce unplanned downtime and maintenance costs
- Improve operational safety with optimal lubrication
- Reliable equipment from a company you can depend on
- Heavy-duty, IP69K, 24VDC, oil and grease
- Proven performance at -40°C
- One pump, multiple configurations – maintains fleet uniformity

Accessories

- Red Alert Filter
  - 380μm, 36 in² steel mesh
  - Visual alert for filter service

- Inline Filter
  - 400μm steel mesh
  - 5,000 PSI (344 bar) max pressure

- Low Level Signal
  - Alerts when lubricant is low, not out
  - Reliable, follower plate-free operation
  - Use with oil to NLGI #2 grease on off-road mobile equipment

- Remote Fill Manifold and Auto-Fill Shutoff
  - Ground-level fill port eliminates climbing
  - Spill-free, single-person operations
  - Mechanical system enables mine-safety, powered-down, refilling best practices

- Tube-In-Tube
  Provides simple and direct venting and filling to the foot of the pump.

- Low-Level Sensor
  Alerts low grease status and self-clears without a follower plate.
