Mobile Equipment Kits

Graco mobile equipment kits provide the latest technology from Graco, including the G Series pumps, solid-state pressure switches, CDP decision valves, and hoses and fittings. Each kit will include all of the components necessary for mobile-specific customization.

In order to eliminate system design and have the pumps process, we have created a quick-to-spec, quick-to-quote and quick-to-sell solution. Scan the QR code above or visit www.graco.com/offroadselector to find an automatic lubrication kit for your piece of heavy equipment.

Accessories

- Pressure Switches
- LED lights available to visually display pressure
- Variety of metering options available
- Flow rates up to 10,000 psi (690 bar)
- Conserves air – air required only during spray interval
- Can be used with most centralized lube system or any lubrication system
- Controls when sections or zones of the system will receive lubricant
- Available in two- or three-way styles
- EasilyIGHLIGHTed fields blockages
- Available in both brass and stainless steel
- Available in both metric and imperial

Graco Offers Solutions For:

**Off-Road**
A fast-growing market, off-road vehicles, including wheel loaders, haul trucks and more, require Graco Auto Lubrication to ensure they operate consistently on-site with less maintenance and fewer repairs.

**On-Road**
Transferring products and people consistently and economically requires always available vehicles. Graco Auto Lubrication delivers those trucks, buses, buses and other vehicles to run optimally with lower maintenance issues.

**Industrial**
Graco Auto Lubrication systems extend equipment life cycles and improve productivity for a wide range of in-plant applications, including food production, plastics, electronics, automotive, paper, metal and more.

**Energy**
Delays in getting equipment online can cost oil and gas companies hundreds of thousands of dollars. Graco Auto Lubrication ensures significantly higher uptime levels for pumps, compressors, blowers, turbines and more to maintain optimal productivity and profitability.

**Oil and Gas**
Graco Auto Lubrication systems extend equipment life by reducing downtime and improving productivity even in the most adverse environmental conditions.

**Construction**
Focusing light beam delivery, the construction industry requires equipment ready to work when covers are. Graco Auto Lubrication extends the life cycle of bulldozers, diggers and other machinery, while improving maintenance tools so contractors can better adhere to schedules.

**Mining**
A rugged and diverse industry, mining requires large equipment managing heavy workloads. With large crews in an industry full of risk, Graco Auto Lubrication enables equipment to surpass safety industry considered standards consistent.

---

**Graco Resources**
Here at Graco, we take pride in delivering tools and solutions that help you succeed every day. Like any project, the work is never truly finished. From continuous R&D to A+ Customer Service, we're always looking for new ways to bring you value.

**Graco.com**
Graco’s website grows you and your customers an intuitive, next-generation web experience – making it easy to find relevant products, services and solutions.

**Graco University**
Graco University is an e-learning module that’s low cost, accessible online, anytime, and contains assets that help educate you on Graco products, training.graco.com

**Graco Gear**
Graco Gear is your one-stop shop for branded and co-branded merchandise and other tools that will help you build customer relationships.

**Industrial Lubrication Equipment Buyer’s Guide**
Detailed product information and additional lubrication solutions in a comprehensive catalog.
