TRANSFORM SIMPLICITY INTO PROFITABILITY

Pulse[®] Pro Fluid Management simplifies how forward-thinking shops track and manage bulk fluids in real time – adding more transparency and accountability to drive productivity and profitability.

TRACK BULK FLUIDS WIRELESSLY, AUTOMATICALLY, ACCURATELY

Experience uncompromised convenience with Pulse Pro Fluid Management. Wirelessly track bulk fluids, capture critical analytics and automate customizable reports to gain a broader view of your operations – from initial dispense to order forecasting. With a native integration for Excede DMS, Pulse Pro is the most comprehensive, convenient and easy-to-use fluid management system on the market.

SIMPLIFY BULK FLUID MANAGEMENT

- Know exactly how much fluid is dispensed, where, and by whom to improve inventory management
- Fast, easy wireless configuration reduces installation costs and eliminates the need for PC connection
- Generate customizable, automated reports to make more informed decisions
- Pair every dispense directly with a work order for more accurate billing
- Add new components as your demands grow
- Integrate seamlessly with your DMS and share information throughout your organization
