

Introducing the durable and hard working LD™ Series pumps

Field-proven performance designed to save you money

Stay ahead of the competition with the latest product solution from Graco Lubrication—the LD Series Pump. The affordable and full featured LD is designed for lower volume applications and is available in 3:1 and 5:1 for oil and 50:1 for grease. These pumps are fine-tuned for a compact, flexible and still incredibly durable solution.

Lubrication solutions

Real Solutions for Real People

Field-Proven Performance Designed to Save You Money

It's Genetics

Loaded with high performance technologies

Only Graco can give you the field-proven performance found in the famous FireBall® pump for a solution that works as hard as you. Fast repairs, flexible configuration, industry leading warranty, and so many other field proven features are built-in—all at a competitive price.

LD Air-Powered Pumps

LD 3:1 Oil Pump

Medium pressure,
high flow applications

LD 5:1 Oil Pump

High pressure, medium flow
for cold temperature or long
run applications

LD 50:1 Grease Pump

High pressure grease
to 7500 psi

Three Inch Air Motor

Provides more power to create better flow.

NXT Air Valve

Designed to reduce icing in continuous use applications and uses less air than competitive pumps for better efficiency. Easy to repair or replace without tearing down internal pump components for less downtime.

Engineered for Durability

Patent-pending cup and plate design eliminates the need for O-rings that wear out faster for a more durable, longer-lasting solution.

Modular Air Valve

Air inlet and exhaust locations are easy to configure with just four bolts for simple, hassle free installations.

Pilot Valve

Patent-pending self cleaning design increases reliability in dirty air environments and minimizes pressure drop with rapid changeovers for reduced stalling and smoother flow.

Adjustable Bung Adapter Included

Built-in slide adjustment with easy-set hand screws is easier to fit into more applications.

Built-In Thermal Relief and Inlet Strainer

Built-in thermal relief (oil only) protects your equipment from thermal expansion without the need to buy and install an additional kit. Inlet strainer (oil only) is built-in to protect pump from contaminants that can damage your pump.
