customer service that sets an industry standard.

a simpler way to lubricate your chassis

EZ Greaser®

single point lube system

EZ Greaser

Simultaneous lubrication from a single grease fitting...

The new EZ Greaser® simplifies the task of greasing your truck or tractor, making it possible to lubricate those hard-to-reach grease fittings in the front and rear of your chassis from a single lube point. No more crawling under the frame or lying on your back to grease the tie rods and lower kingpins. No more acrobatic stretching to reach the spring hangers hidden behind the fuel tank. Less pain, less

aggravation and less mess are just a few of the advantages the EZ Greaser provides. And since all of the lines are connected directly to the lube point, sand and dirt are prevented from entering the lines, eliminating a source of wear.

Every point lubricated in a fraction of the time...

Routine maintenance can be anything but routine when it requires more time than is necessary. The new EZ Greaser by Graco is designed to make a complicated, time-consuming job as easy as point and squeeze. Once your system is installed all it takes is a few pumps of the grease gun and your entire chassis is lubricated and ready for the road. And because it is so easy, chances are it will be done when scheduled, leading to less wear and tear from improperly lubricated fittings. The EZ Greaser assures that the proper amount of grease is injected into each point — never too much, never too little.

Everything you need in a single EZ Greaser kit... Each EZ Greaser kit comes complete with all of the fittings, tubing, adapters, grease divider valves and instructions required to easily install your system. This system is designed to adapt to a multitude of vehicles including ambulances, package delivery trucks, dump trucks, straight trucks and Class 6-8 tractors. Choose the kit that is right for your vehicle and simplify your maintenance routine today.

SYMBOL	QTY	DESCRIPTION
A	4	King Pins, Upper & Lower
B	2	Drag Link
C	2	Tie Rod
D	2	Spring Pin
E	4	Spring Hanger
P/N 550-503-634 8 Point kits will do points A, B and C.		
P/N 550-503-636 14 Point kits will do all of the above.		
P/N 550-503-646 16 Point kits will do all of the above plus two extra points.
