9	SLACK ADJUSTER	1	Orange	2-Tube Unmarked	556638 Elbow
10	"S" CAM	0	Black		556638 Elbow
11	PLUG				
12	PLUG				

Installation Instructions

1. Locate hole or drill and ream a 5/8" hole in frame rail.
2. Mount module through hole in frame with lock washer against hex on stud. **Do not overtighten.**
3. Run each twin line to the brake slack adjuster and "S" cam following the air hoses from the control valve to the brake cams. This will allow for enough slack in the lines for axle movement.
4. Make sure the orange lines going to the slack adjusters have enough of a loop to allow movement of the actuator.
5. The main line connection is through an elbow, 556639 at one end. There may be a plug in the other end, another elbow or a straight fitting to allow grease to the next module.
