

GRINDLAZER™

Scarifier Systems

PROVEN QUALITY. LEADING TECHNOLOGY.

▶ GRINDING APPLICATIONS

2010

Launch of the GrindLazer™ family with an innovative product that made scarifying more manageable with a mobile, articulating design.

2017

Acquisition of SMITH Manufacturing expanded Graco's portfolio to include entry-level and rotary units with vacuum and separator systems as well.

2019

Release of Depth Control System (DCS) feature on the Pro/HP series for the ultimate operator control and safety, application flexibility and higher productivity.

2020

Introduction of six new Scarifier Systems: the LP Cyclone Separator, three high-speed rotary HP and two heavy-duty drum HP GrindLazer™ units.

Future

Be the first to know our latest innovations by subscribing to our digital E-newsletter at www.graco.com/grinding

GrindLazer™

Experienced contractors know the difference. Graco GrindLazer professional scarifying solutions are recognized as solid investments that perform reliability and quality, year after year, with an industry-leading warranty.

Graco offers an expanded line of GrindLazers and cutters as your total solution for all your scarifying applications. Our High-production Series includes high-end features that allow you to get the job done in less time and with less effort. This year's product line is further expanded with three HP rotary scarifying units, the LP Cyclone Separator and with two HP DCS drum scarifiers. The new Depth Control System is offered throughout the range to further improve your productivity when you need it.

► Graco offers the right solution for all your scarifying applications

GrindLazer™

Graco's Professional Series includes two very different products that are strong performers for all surface preparations, repairs and line removal needs. The Standard and Handheld Series completes the GrindLazer family with compact scarifying units that are ideal for getting into tight locations.

No matter which scarifying unit you choose, you can be assured that you are getting the best the industry has to offer from Graco!

GrindLazer™

► Surface Preparation

Proper coating adhesion requires proper surface preparation. It is critical to remove all surface contaminants to leave the surface clean, dry, properly profiled, and sound. Graco offers a full range of scarifying units and cutters to create the correct surface profile (SP) while leaving the surface looking untouched, guaranteeing good coating adhesion.

► Cutter Applications

GrindLazer™

► Graco-only Solutions to improve your Productivity

Eliminate Measuring and Guesswork

- Quickly and easily adjust the cutter depth to align with the everchanging terrain
- Achieve accurate cut depth for tape or thermoplastic inlay

Ultimate Control and Flexibility

- User settable zero point to match cutter assembly
- Displays “active depth” from zero point
- Eliminates damage due to “dropped drums”
- English and metric units

Durable Control Design

- All electronic components are 100% encapsulated so that these are protected from vibration and most weather conditions
- Push buttons are 100% sealed
- Aluminum control enclosure holds up to harsh jobsite environments

Remote Handlebar Switch

- Control the cut depth while keeping both hands on the GrindLazer increases safety and reduces fatigue
- Highly durable, military-grade switch

Maintenance-free Design

- Linear drive delivers consistent, accurate movement
- High-speed design for fast on-the-fly adjustments
- Unique sealed case resists water, dust and debris

GrindLazer™

GrindLazer features a series of benefits that offer you the most productivity and efficiency whilst reducing fatigue and stress on the job:

► **Expanded line-up for all Applications and Surface Profiles**

- Multiple cutters to achieve full range of surface profiles
- Cutters suitable for a wide range of surfaces and removal applications

► **Rotary Applications (5 Rotary cutters)**

- Removal of paint and thermoplastic
- Surface preparation without grooves

Wire Brush

Carbide Pin 72

Carbide Pin 48

Carbide Pin 24

Carbide Pick

► **Easy Rotary Cutter Removal**

Simply tilt up the engine chassis and spin off the cutter assembly

► **Handheld Applications (3 Rotary cutters)**

- Small touch-up surface preparation jobs
- Removal of paint on horizontal and vertical surfaces

Steel Star

Carbide Star

Carbide Flail

GrindLazer™

▶ Drum Applications (11 Drum cutters)

- Grooving to prepare surface for paint or thermoplastic
- Removal of paint and thermoplastic
- Surface leveling to take down high spots (trip hazards)
- Inlay applications for thermoplastic and tape

Wire Brush	Steel Star	Steel Beam	Carbide Flail	Carbide Flat	Carbide-Tipped Miller
Full-Carbide Miller	Carbide Pick	Diamond Blade	PCD Flat*	PCD Round	PCD Nano-Round

* The PCD Flat drum used on the GrindLazer HP DC1520 E DCS and HP DC1538 G DCS has six teeth.

▶ Easy Drum Removal/Installation

Avoid losing time and money to replace drums. GrindLazer is designed to offer you a 3-step drum removal/installation on the job

1. Loosen four bolts

2. Remove bolts and door

3. Remove drum assembly

▶ Handheld Applications (3 Drum cutters)

- Small touch-up surface preparation jobs
- Removal of paint on horizontal and vertical surfaces

Steel Star	Carbide Star	Carbide Flail

GrindLazer™ HandHeld DC21 E - RC71 E

GrindLazer HandHeld DC21 E

GrindLazer HandHeld RC71 E

► Applications & Materials

The GrindLazer Standard DC21 E and Standard RC71 E are great choices for those small surface preparation jobs. Rugged, compact design makes removal of paint on horizontal and vertical surfaces quick and easy. Available in both drum (DC21 E) and rotary (RC71 E) styles, both delivered with a Carbide Flail cutter drum.

► Features & Benefits

Long Life on the Most Challenging Jobs

- Steel and high-impact plastic construction
- Proven Makita® motor and drive

Comfort and Flexibility

- Reversible handle accommodates right- or left-handed users (DC21 E only)

Maintenance-free Design

- Sealed bearings for extended life and ease of use

Vacuum Port for Dust Removal

- Allows for connection of a LazerVac™ vacuum system for the reduction of airborne dust

GrindLazer™ Standard DC87 G - Standard DC89 G

GrindLazer Standard DC87 G
GrindLazer Standard DC89 G (shown)

Fixed Wheel

Optional Edge Kit

► Applications & Materials

The GrindLazer Standard DC87 G (6.5 HP) and DC89 G (9.0 HP) scarifiers are great options for those smaller traffic marking removal jobs, trip hazard removal, and for preparing a surface before applying new traffic markings.

► Features & Benefits

Jobsite Tough Design

- Heavy-duty all-steel frame will hold up to the harsh jobsite environment

Honda Power with Cyclone™ Filter

- Contractor preferred power and proven reliability
- Cyclone filter protects the engine from harmful airborne dust

Dual Depth Control

- Multi-position lever for fast macro-adjustments
- Rotating knob for fine micro-adjustments

Reduced Vibration for All-day Comfort

- Comfort grip handles reduces the vibration that you feel through your hands

User-friendly Operation

- Adjustable handlebar to fit different operators
- Easy-to-reach throttle control during operation

Built-in Application Flexibility

- Swivel wheel for feathering applications
- Fixed wheel for straight line removal

Maintenance-free Design

- Sealed main bearings for long life and easy of use

Durable High-torque Power Transfer

- Triple drive belts design for long-life use and eliminates costly downtime

Vacuum Port for Dust Removal

- Allows for connection of a LazerVac™ vacuum system for the reduction of airborne dust

Dual Purpose Tachometer and Hour Meter

- Track usage for maintenance to ensure your equipment remains in top shape
- Displays engine RPMs while running

GrindLazer™ Pro DC1013 G

POWERED by **HONDA™**

GrindLazer Pro DC1013 G

Optional Edger Kit

DialDown™ on GrindLazer™ Pro DC1013 G

► Applications & Materials

The GrindLazer Pro DC1013 G is a high-output option for marking removal, leveling and surface preparation.

► Features & Benefits

Jobsite Tough Design

- Heavy-duty all-steel frame will hold up to the harsh jobsite environment
- Precision All-steel Wheel Assemblies ensures accurate cuts and long life

No-Bounce Center-Weight Design

- All the weight is over the cutter, resulting in a better control and a better quality cut

DialDown™ Depth Control System

- Easy to dial down to desired depth
- Forward cut, precise cutter depth with multiple-position depth control

Precision All-steel Wheel Assemblies

- Solid design ensures accurate cuts and long life

Anti-vibration Handlebars for All-day Comfort

- Padded for minimal vibration transfer
- Adjustable handlebar to fit different operators

Maintenance-free Design

- Sealed main bearings for long life and easy of use

Durable High-torque Power Transfer

- Heavy-duty wide HTD* Drive Belt design for long-life use and eliminates costly downtime

Vacuum Port for Dust Removal

- Allows for connection of a LazerVac vacuum system for the reduction of airborne dust

Dual Purpose Tachometer and Hour Meter

- Track usage for maintenance to ensure your equipment is in top shape
- Displays engine RPMs while running

* HTD or high-torque drive

GrindLazer™ Pro RC813 G - Pro RC813 G DCS

GrindLazer Pro RC813 G
GrindLazer Pro RC813 G DCS (shown)

► Applications & Materials

The GrindLazer Pro RC813 G (DCS) is the ideal choice for when you need to remove lines without grooves. The rotary action of this scarifier hovers over the surface, resulting in a line removal without leaving any ghost lines - making this the "No-Groove Line Eraser".

► Features & Benefits

No-Groove Line Eraser

- Rotary cut removes lines without leaving any grooves
- Independent adjustment for pitch, depth and pressure offers ultimate control and no-damage removal on a wide range of surfaces

Honda Power with Electric Start

- Contractor preferred power and proven reliability
- Electric start system allows for easy starting - even in cold weather

Jobsite Tough Design

- Heavy-duty all-steel frame will hold up to the harsh jobsite environment

Quick Cutter Removal

- Tilt-up chassis design for a quick and toolless drum replacement

Maintenance-free Design

- Sealed main bearings for long life and easy of use

Vacuum Port for Dust Removal

- Allows for connection of a LazerVac vacuum system for the reduction of airborne dust

► Includes all Pro RC813 G features PLUS Features & Benefits

Ultimate Control and Application Flexibility

- Set zero point where the cutter meets the surface
- Displays "active depth" on the LiveLook™ display
- Robust design stands up to the harsh abuse
 - Fully encapsulated electronic components
 - Ultimate protection from vibration, jobsite, and weather conditions

Eliminate Measuring and Guesswork

- Quick and easily adjust the cutter depth to align with ever-changing terrain
- Eliminates damage due to dropped cutters

Total Operator Control with Remote Switch

- Control cut depth while keeping both hands on the GrindLazer

GrindLazer™ HP DC89 G

GrindLazer HP DC89 G

► Applications & Materials

The GrindLazer HP DC89 G provides high production, general line removal. The Easyglide™ Wheel Mount System makes it as easy to use as a LineLazer and its rugged, innovative design means you can count on it to perform for a lifetime of use.

► Features & Benefits

TriBelt™ Drive System

- 3-cog belt design optimizes power transfer and maximum load handling
- Eliminates costly downtime

Extreme-Duty ProStart System

- Centrifugal clutch allows an easy cutter start/stop providing a safer operation
- Easy to start in cold weather with a turn of a key
- Provides longer belt life and eliminates broken recoils

Fat Track™ Front Swivel Wheel

- Proven front caster wheel system makes turning fast and easy
- Maneuver curves better
- No need to "muscle it" while moving

EasyGlide™ Wheel Mount System

- Front-mounted caster along with dual rear pneumatic air-filled tires makes handling safe and as easy to maneuver as a LineLazer
- Pneumatic air-filled tires helps eliminate vibration

Vacuum Port for Dust Removal

- Allows for connection of a LazerVac vacuum system for the reduction of airborne dust

LineDriver compatible

GrindLazer™ HP DC1013 G - HP DC1013 G DCS

DialDown™ on GrindLazer HP DC1013 G

GrindLazer HP DC1013 G
GrindLazer HP DC1013 G DCS (shown)

► Applications & Materials

The GrindLazer HP DC1013 G (DCS) is the contractor choice for all-round scarifying jobs including parking lot lines, intersection markings, inlay application and sidewalk smoothing. Add the optional LineDriver system for unmatched performance and to get more work done everyday without the fatigue from walking.

► Features & Benefits

DialDown™ Depth Control System

- Easy to dial down to desired depth
- Forward cut, precise cutter depth with multiple-position depth control

Vibration Reduction Technology for All-day Comfort

- Up to 4x less vibration than the competition
- Pneumatic air-filled tires, comfort grips and a LineLazer frame design reduces vibration and user fatigue
- Comfort-grip handlebars for precise steering

Ultimate removal with InstaCut™ Technology

- Only unit to offer a hands-on engagement of the cutting deck system for up or down position
- Allows the deck to float when on uneven surfaces
- No-tool system

Vacuum Port for Dust Removal

- Allows for connection of a LazerVac vacuum system for the reduction of airborne dust

Includes all HP DC1013 G features PLUS
Features & Benefits

Ultimate Control and Application Flexibility

- Set zero point where the cutter meets the surface
- Displays "active depth" on the LiveLook™ display
- Robust design stands up to the harsh abuse
 - Fully encapsulated electronic components
 - Ultimate protection from vibration, jobsite, and weather conditions

Eliminate Measuring and Guesswork

- Quick and easily adjust the cutter depth to align with ever-changing terrain
- Eliminates damage due to dropped cutters

Jobsite Tough Design

- Robust linear motor stands up to highly abusive environments

Electric Start

- Electric start system on all DCS units allows for easy starting - even in cold weather

Total Operator Control with Remote Switch

- Control cut depth while keeping both hands on the GrindLazer

GrindLazer™ HP DC1021 G - HP DC1021 G DCS

GrindLazer HP DC1021 G DCS

GrindLazer HP DC1021 G

► Applications & Materials

The GrindLazer HP DC1021 G (DCS) is the high production choice when it comes to the most demanding scarifier jobs. Its Up-Cut or reverse cutting direction allows you to remove all types of lines found on parking lots or roadways while still having the power for inlay/grooving jobs. Combined with the LineDriver, you'll finish jobs faster and more accurately than ever before!

► Features & Benefits

Extreme-Duty Electric ProStart System

- Centrifugal clutch allows an easy cutter start/stop providing a safer operation
- Easy to start in cold weather with a turn of a key
- Provides longer belt life and eliminates broken recoils

Ultimate removal with InstaCut™ Technology

- Only unit to offer a hands-on engagement of the cutting deck system for up or down position
- Allows the deck to float when on uneven surfaces
- No-tool system

Built-in Application Flexibility

- Fat Track™ Front Swivel Wheel system makes turning fast and easy
- EasyGlide™ Wheel Mount system allows safer and easier maneuvering

Vacuum Port for Dust Removal

- Allows for connection of a LazerVac vacuum system for the reduction of airborne dust

Includes all HP DC1021 G features PLUS

► Features & Benefits

Ultimate Control and Application Flexibility

- Set zero point where the cutter meets the surface
- Displays "active depth" on the LiveLook™ display
- Robust design stands up to the harsh abuse
 - Fully encapsulated electronic components
 - Ultimate protection from vibration, jobsite, and weather conditions

Eliminate Measuring and Guesswork

- Quick and easily adjust the cutter depth to align with ever-changing terrain
- Eliminates damage due to dropped cutters

Jobsite Tough Design

- Robust linear motor stands up to highly abusive environments

Total Operator Control with Remote Switch

- Control cut depth while keeping both hands on the GrindLazer

GrindLazer™ HP RC820 H

GrindLazer HP RC820 H

► Applications & Materials

The GrindLazer HP RC820 H is designed for high-volume marking removal without leaving any grooves. It is designed to be mounted to skid steer equipment with low-flow hydraulic systems and uses a variety of rotary cutter assemblies to remove different types of markings.

► Features & Benefits

No-Groove Line Eraser

- Single rotary cutter head removes lines without leaving any grooves
- Independent adjustment for pitch, depth and pressure offers ultimate control and no-damage removal on a wide range of surfaces

Multi-point Depth Control System

- Multi-point depth adjustment for accurate depth control
- Spring suspension allows the cutters to float on the surface

Low-Flow Hydraulic System

- Standardized quick connections allows an easy operation off most low-flow* hydraulic systems

Jobsite Tough Design

- Heavy-duty all-steel frame will hold up to the harsh jobsite environment

Universal Bob-Tach® Attachment

- Quick-attach, tool-free backplate connection to most skid loader equipment

Vacuum Port for Dust Removal

- Allows for connection of a LazerVac vacuum system for the reduction of airborne dust

*70 LPM/18GPM

GrindLazer™ HP RC1640 H - HP RC1625 G

GrindLazer HP RC1640 H
GrindLazer HP RC1625 G (shown)

► Applications & Materials

The GrindLazer HP RC1640 H and HP RC1625 G rotary scarifiers offer the highest rate of groove-free marking removal and can be used to remove markings on both concrete and asphalt surfaces. They use three cutter assemblies to remove a path up to 40 cm wide. The RC1640 H operates off the vehicle's high-flow hydraulic system while a 25 HP gasoline engine powers the RC1625 G.

► Features & Benefits

No-Groove Line Eraser

- Three rotary cutter head removes lines without leaving any grooves
- Independent adjustment for pitch, depth and pressure offers ultimate control and no-damage removal on a wide range of surfaces

Multi-point Depth Control System

- Multi-point depth adjustment for accurate depth control
- Spring suspension allows the cutters to float on the surface

Multiple Power Options

- Standardized quick connections allows an easy operation off most high-flow* hydraulic systems (HP RC1640 H)
- Kohler® gasoline power with electric start provides excellent power with proven reliability and allows for easy starting with a flip of a switch - even in cold weather (HP RC1625 G)

Jobsite Tough Design

- Heavy-duty all-steel frame will hold up to the harsh jobsite environment

Universal Bob-Tach® Attachment

- Quick-attach, tool-free backplate connection to most skid loader equipment

Vacuum Port for Dust Removal

- Allows for connection of a LazerVac vacuum system for the reduction of airborne dust

*115 LPM/30GPM

GrindLazer™ HP DC1520 E DCS - HP DC1538 G DCS

GrindLazer HP DC1520 E DCS
GrindLazer HP DC1538 G DCS (shown)

GrindLazer HP DC1520 E DCS

► Applications & Materials

The DC15 DCS series of heavy-duty, self-propelled drum scarifiers are designed to tackle the most demanding removal and surface preparation jobs. They are capable of removing a path up to 40.5 cm wide and feature Graco's electronic DCS Depth Control System allowing users to quickly and accurately adjust cut depth without stopping production.

► Features & Benefits

Do-it-All Solution

- Adaptable for leveling, grooving, inlay and scarifying
- Up to 40.5 cm removal path

Self-propelled

- Variable-speed hydrostatic drive allows users to dial in the speed for each application

Multiple Power Options

- 20 HP 380V 50Hz for those applications where exhaust fumes are not allowed or preferred (HP DC1520 E DCS)
- 38 HP Kohler gas engine with electric start system allowing for easy starting - even in cold weather (HP DC1538 G DCS)

Jobsite Tough Maintenance-free Design

- Heavy-duty all-steel frame and robust linear motor stands up to the harsh jobsite environment
- Comfort grip handles reduces the vibration that you feel through your hands
- Sealed main bearing for long life and ease of use

Vacuum Port for Dust Removal

- Allows for connection of a LazerVac vacuum system for the reduction of airborne dust

Ultimate Control and Application Flexibility

- Set zero point where the cutter meets the surface
- Displays "active depth" on the LiveLook™ display
- Robust design stands up to the harsh abuse
 - Fully encapsulated electronic components
 - Ultimate protection from vibration, jobsite, and weather conditions

Total Operator Control with Remote Switch

- Control cut depth while keeping both hands on the GrindLazer

Eliminate Measuring and Guesswork

- Quick and easily adjust the cutter depth to align with ever-changing terrain
- Eliminates damage due to dropped cutters

Dual Purpose Tachometer and Hour Meter

- Track usage for maintenance to ensure your equipment is in top shape
- Displays engine RPMs while running

GrindLazer™ Accessories

USED ON: GrindLazer HP DC1520 E DCS - GrindLazer HP DC1538 G DCS (HIGH SPEED VERSION ONLY)

See Repair manual for additional Cutter Stacking Recommendations.

Graco's PCD drums are revolutionizing surface preparation applications by using self-sharpening polycrystalline diamond technology to gently shave the surface. These cutters last up to 30X longer than traditional carbide flails and cut up to 4X faster than diamond blades, so you can finish the job faster and be more productive.

- PCD Flat: Leaves flat profile for shaving and removing coatings
- PCD Round: Leaves deeper grooves than Nano-Round. Ideal for aggressive removal and thicker coatings
- PCD Nano-Round: Leaves fine ridges for improved coating adhesion. Ideal for paint, thermoplastic and epoxy

Units used with GrindLazer™ - LineDriver

Specifications

LINEDRIVER*

LineDriver 160

LineDriver HD 200

SPECIFICATIONS	LineDriver 160	LineDriver HD 200
Part Number	262004	262005
Motor Engine - cc (HP)	Honda 160 (5.5)	Honda 200 (6.5)
Engine Starting System	Manual Pull	ProStart
Fuel Capacity - litre (gallon)	3.6 (.95)	3.6 (.95)
Weight - kg (lb)	120 (266)	125 (277)

*All LineDriver units can be used on the LineLazer, ThermoLazer and the HP GrindLazer

Units used with GrindLazer™ - LazerVac™ Vacuums

Specifications

VACUUMS

LazerVac 330

SPECIFICATIONS	
Part Number	26B003 (EU) 26B004 (IT) 26B005 (CH) 26B006 (DK)
Air Power - air watts	1665
Air Flow - l/sec. (cfm)	175 (375)
Vacuum Pressure	186.8 mmHg (100") Water
Capacity	75 litre (20 gallon)
Engine/Motor - cm ³ (HP)	230V electric (3.0)
COMPOSITION	
Filter	17X185
Dust Bag	17X695
Hose	17X156

For accessories to these units see page 29.

► Features & Benefits

Filtration

- Removes silica dust, resulting in a safer environment

Auto-Filter Cleaning

- Separate motor operates dual paddles, which knock down the debris from the filter while you work - preventing filter clogs

Toolless Filter Design

- Allows for quick filter change-out while on the job

Longpac Bag System

- Continuous dust containment means less exposure to silica dust
- Large capacity for more run time, less downtime

Units used with LazerVac™ - Cyclone Separators

Specifications

CYCLONE SEPARATORS

Cyclone 20 Separator

Cyclone 32 Separator

Cyclone LP Separator

SPECIFICATIONS			
Part Number	25M861	25M862	25R090
Capacity	75 litre (20 gallon)	120 litre (32 gallon)	20-metre long bag
COMPOSITION			
Dust Bag	17X695	17X695	17W295
Hose	17X693	17X693	17X693

Add one of Graco's Cyclone Separators in-line with the LazerVac to collect the larger debris before it reaches the vacuum filter - greatly extending the time between filter changes.

► Features & Benefits

Reduced Filter Clogging

- Cyclone design removes large debris before it gets to the vacuum filter which allows you to work longer
- No maintenance design - just empty canister when it is full

Longer Run Time

- Choose between high-capacity drum or bag collection options - depending on your job

Jobsite Tough Design

- Heavy-duty all-steel design will hold up to the harsh jobsite environment

PART NUMBER	DESCRIPTION
17X185	FILTER (1 PCS., LAZERVAC 330)
17X695	DUST BAGS (20 PCS., LAZERVAC 330/CYCLONE 20)
17W295	LONGOPAC BAG (20 M, CYCLONE LP)
17X216	DUST BAGS (20 PCS., CYCLONE 32)
17X156	STANDARD VACUUM HOSE (9 M)
17X704	HIGH-TEMP VACUUM HOSE (9 M)
17X693	SEPARATOR/VACUUM CONNECTION HOSE (1,5 M)
17W154	HIGH-TEMP SEP./VACUUM CONNECTION HOSE (1,5 M)

OUR PROMISE TO YOU

Since 1926, **innovation**, **quality** and **A+ service** have been at the centre of Graco.

Experience innovation

Our focus on innovation results in products and equipment that lead the industry with technologically-advanced features, pioneering design, high performance and unparalleled reliability. In short, innovation is how you get better products!

Building quality

You are investing in high-quality products built to last for years of reliable service. Moreover, we partner with our customers to better understand how you're deploying our products in the field, then use your experiences to improve performance and durability.

A+ service, every time

You'll see A+ Service in action when you contact any of our support services options no matter where you are in the world. We'll listen to your situation and work methodically to resolve it as quickly as we can. We are guided by a mindset of integrity and a customer service view centred on collaboration and relationships, not transactions.

We are here to answer questions and help address your needs.
