

# Active Surge Suppressor

# Active Surge Suppressor

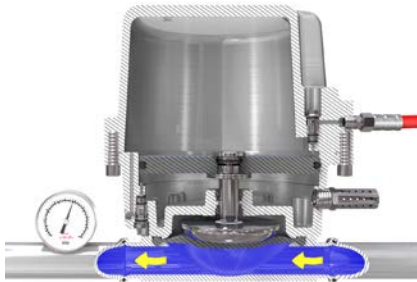

## 'Set and Forget' pulsation minimisation

Minimise pulsation on factory paint circulation lines with Graco's active surge suppressor. Once you have set it up, you can forget about manual adjustments.

- Active air pressure compensation makes periodic air pressure checks unnecessary.
- Automatic self-adjustment removes the need to manually adjust air pressure inside the surge suppressor when the target fluid pressure changes.

17W739

- **Shop air compatibility:** The suppressor connects to compressed air lines already installed in most plants.
- **Good flush-ability:** The fluid section has an optimised flow path that flushes cleanly and thoroughly in between colours.
- **Improved failure mode:** The non-return valve prevents paint from leaking out if a diaphragm ruptures.

- Save space with easy installation.
- Mount directly onto the pump, wall or floor.
- Install in a down or up position.

## Ordering information

Part Number	Inlet/ outlet	Maximum charge air pressure in bars (psi)	Maximum inbound fluid			Max. Delivery		Wetted parts	Manual
			psi	bar	MPa	Single pump	E-flo DC 2X		
17W739	1 1/2 sanitary	7 (100)	300	21	2.1	37.8 lpm (10 gpm)	75.7 lpm (20 gpm)	304 stainless steel, PTFE	3A6103

Part no.	Description
17X733	Repair kit
18A983	Direct pump mount kit
18A984	Floor / wall mount kit
18A985	Floor stand adapter kit
17X529	Breather valve kit
